able to connect with  
Elven Walkways (sold  
separately)

MINIATURE SCENERY MODELS ARE  
DESIGNED FOR 25MM (1 INCH) BASE  
MINIATURES, IDEAL FOR GAMERS  
AND COLLECTORS.

AT [WWW.MINIATURESCENERY.COM](http://WWW.MINIATURESCENERY.COM)  
WE PROVIDE A DETAILED AND EASY  
TO FOLLOW ILLUSTRATED GUIDE FOR  
PAINTING EACH SERIES.

ELVNTWR

#### Preparation

Once you clear some table space you will need a pair of side cutters and glue (PVA, wood glue, hobby glue). A file or small piece of sandpaper can be used to clean along any edges that have bur.

It's a good idea to familiarise yourself with how the pieces fit together before gluing.

#### Getting Started

I. Remove all the parts out of the board with your cutters.

II. Go over each part again with the cutters removing as much of the tabs as possible (this greatly reduces the time needed with the file or sand paper).

III. Use a file or sand paper last to completely remove the tabs that might remain.

IV. Parts may be a very tight fit, slight trimming or sanding of parts may be needed for ease of assembly.

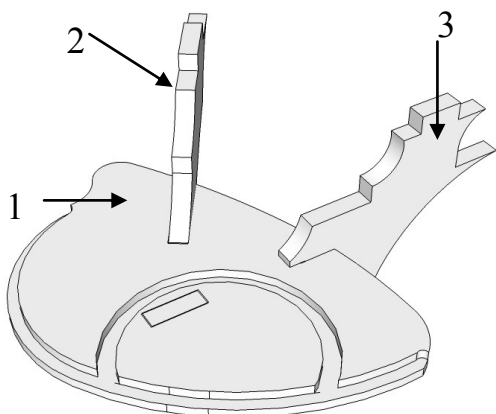

#### Construction

Slot the parts together as shown by the pictures below, applying glue wherever there is a connection.

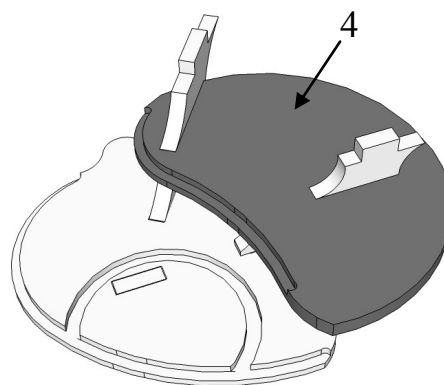

Allow the model to completely dry before painting it.

**IMPORTANT: ASSEMBLE PARTS IN NUMBER ORDER AND DONT REMOVE THEM FROM THE PARTS SHEETS UNTIL YOU ARE READY FOR THEM. LEST YOU BECOME NUDELESSLY CONFUZLED.**

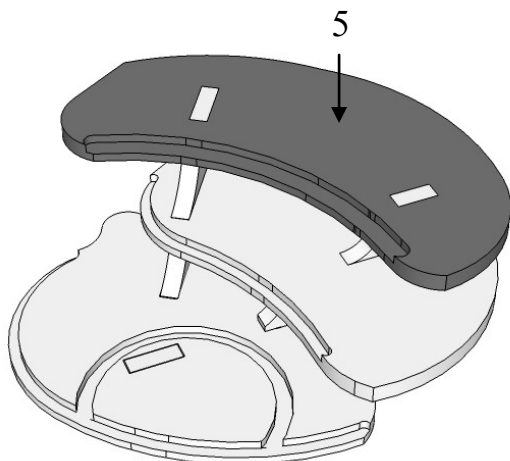

#### STEP 1

Steps 1 through 3 should be checked carefully for alignment and straightness before being put to one side to dry. Trust me, it's better this way.

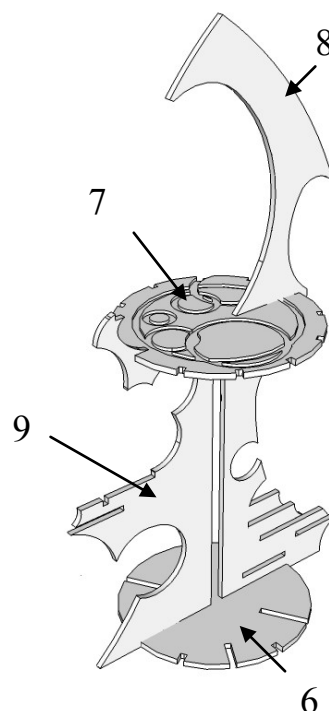

#### STEP 3

#### STEP 4

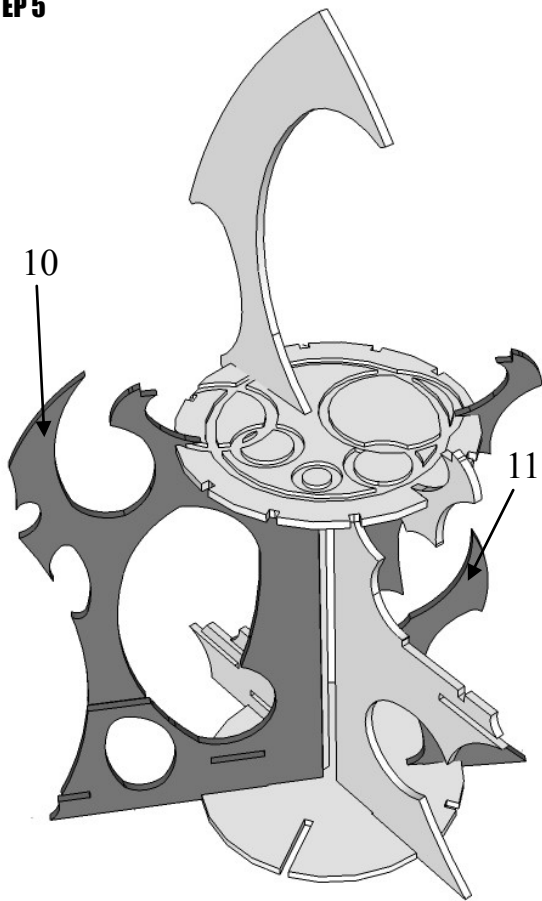

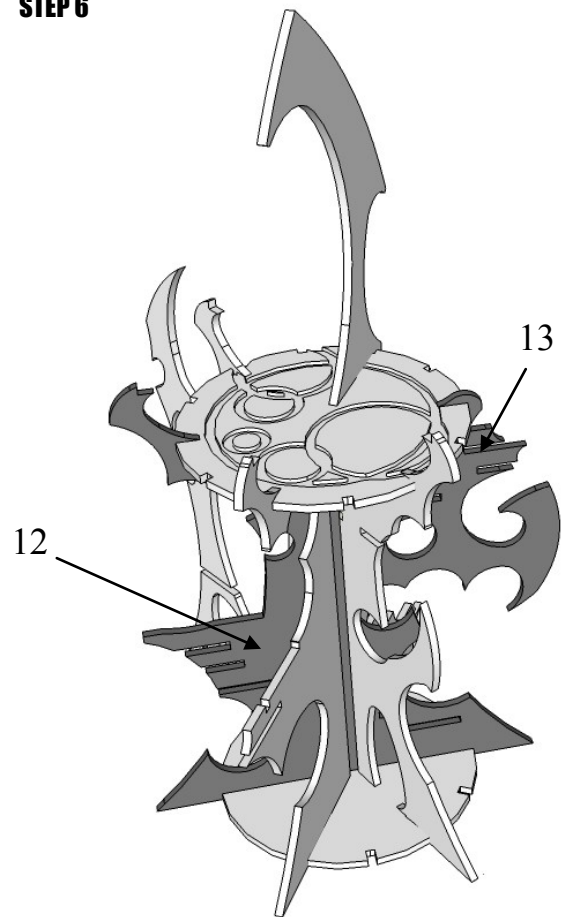

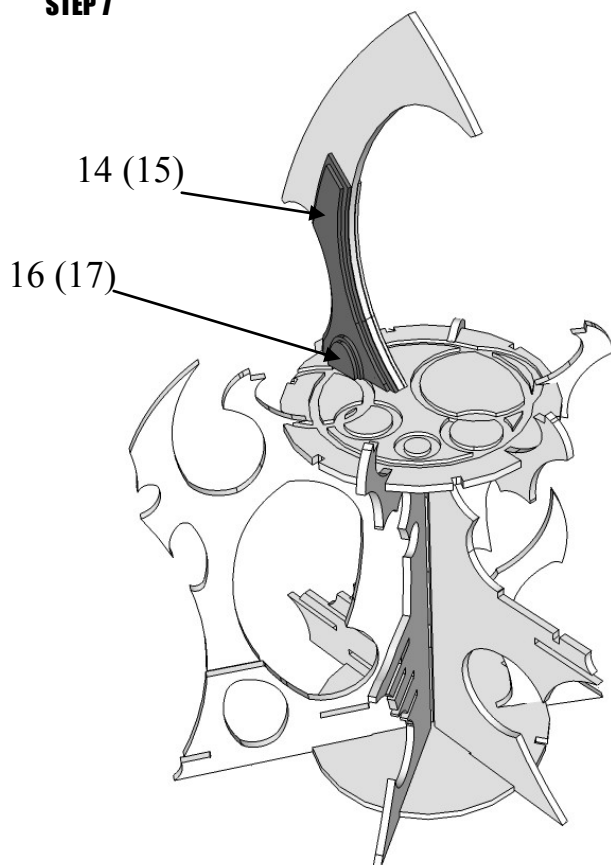

Take careful note of the position of the base (part six) in relation to the location of parts 8 and 9.

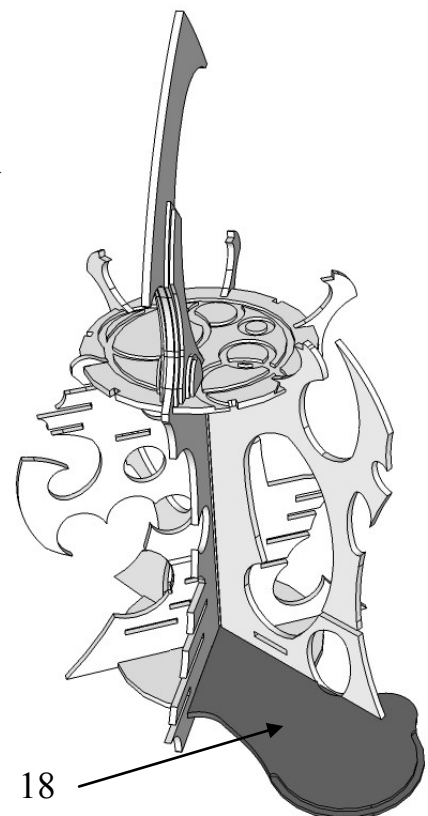

## PAINTING

At [www.miniaturescenery.com](http://www.miniaturescenery.com) we provide detailed and easy to follow illustrated guides for painting Miniature Scenery. We also share simple, effective painting techniques that you can use to get your model looking its best.

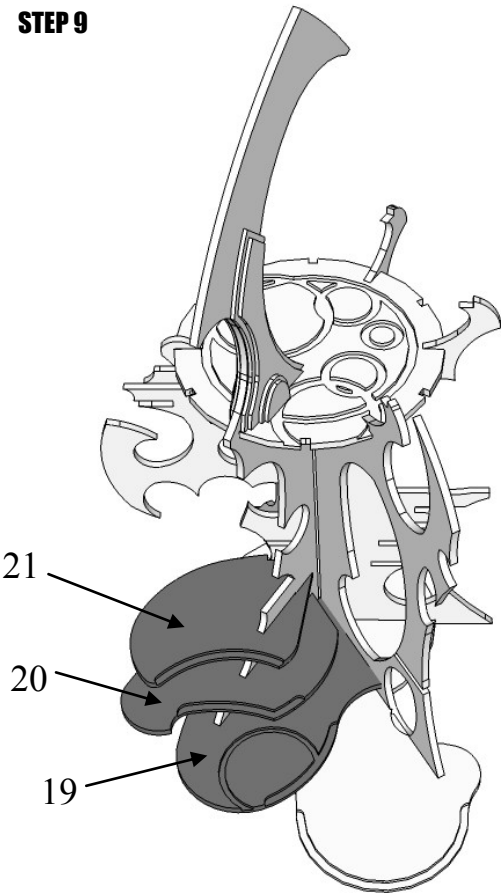

**STEP 5****STEP 6****STEP 7****STEP 8**

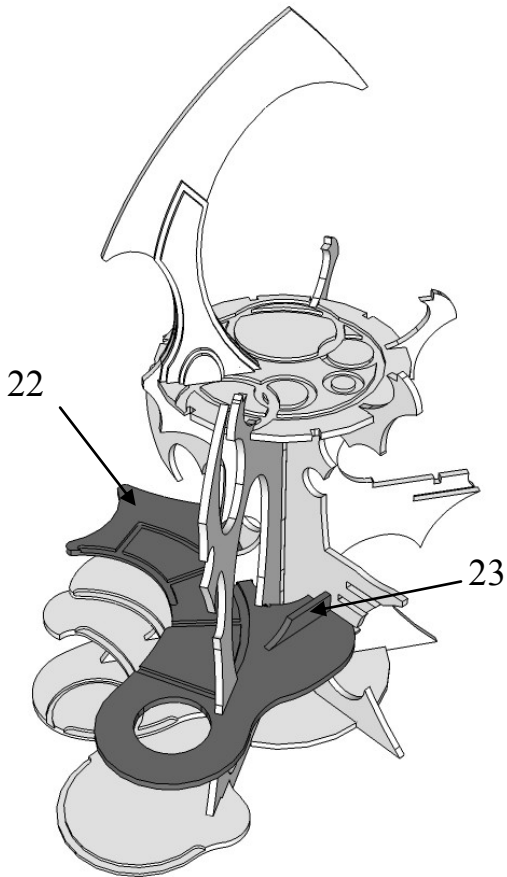

Now, admittedly there may be a bit of pushing and pulling in the next few steps, as the pieces CAN be a bit tight.

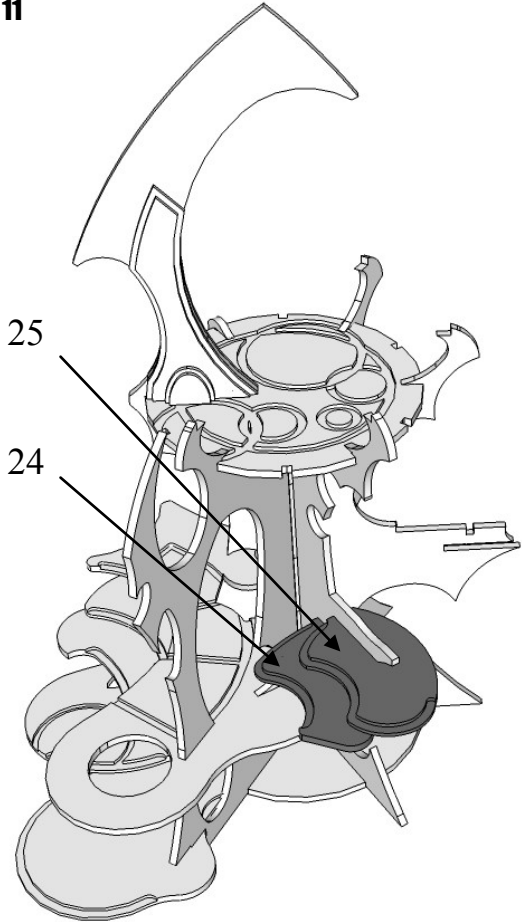

**STEP 9**

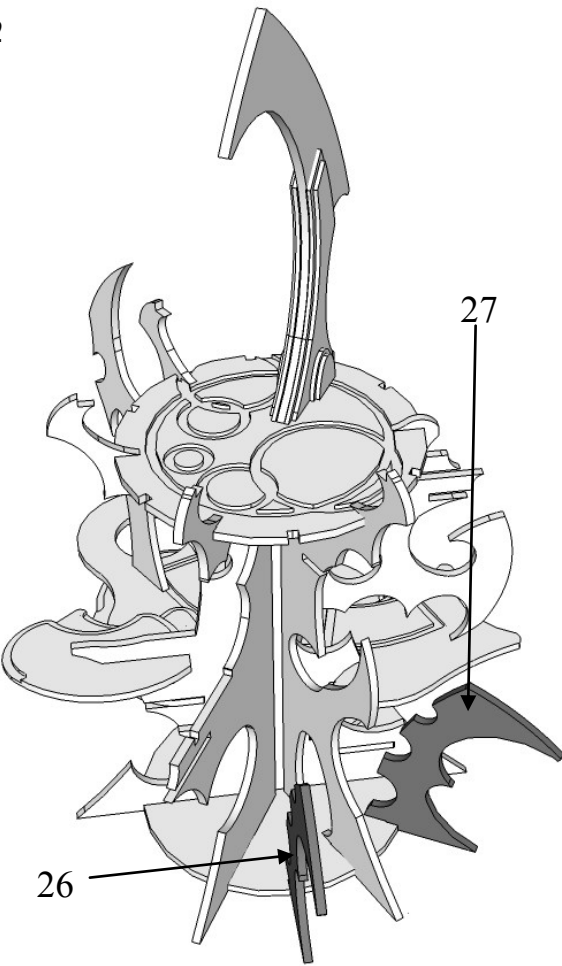

**STEP 10**

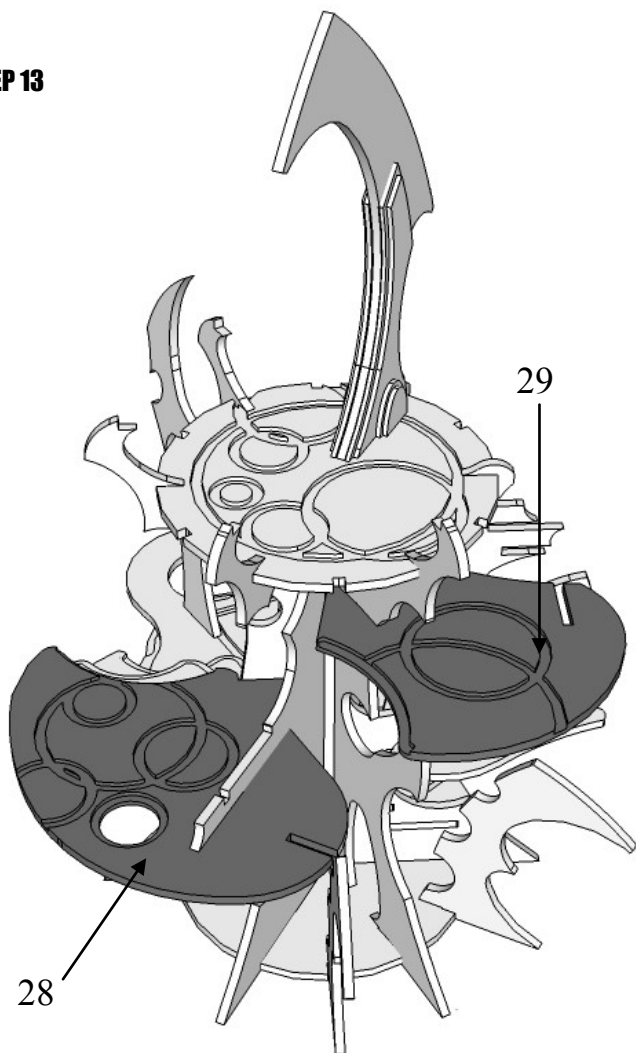

**STEP 11**

**STEP 12**

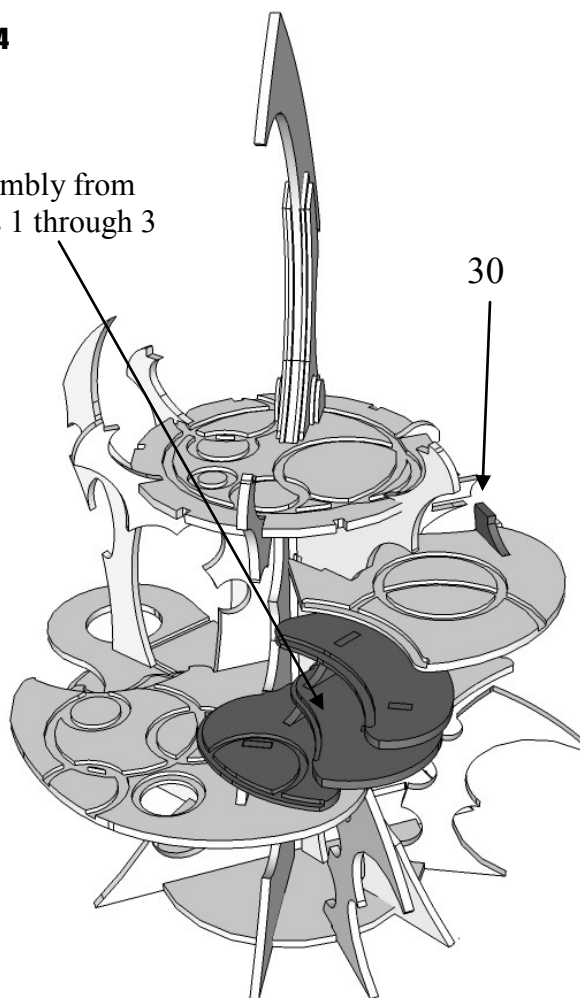

### STEP 13

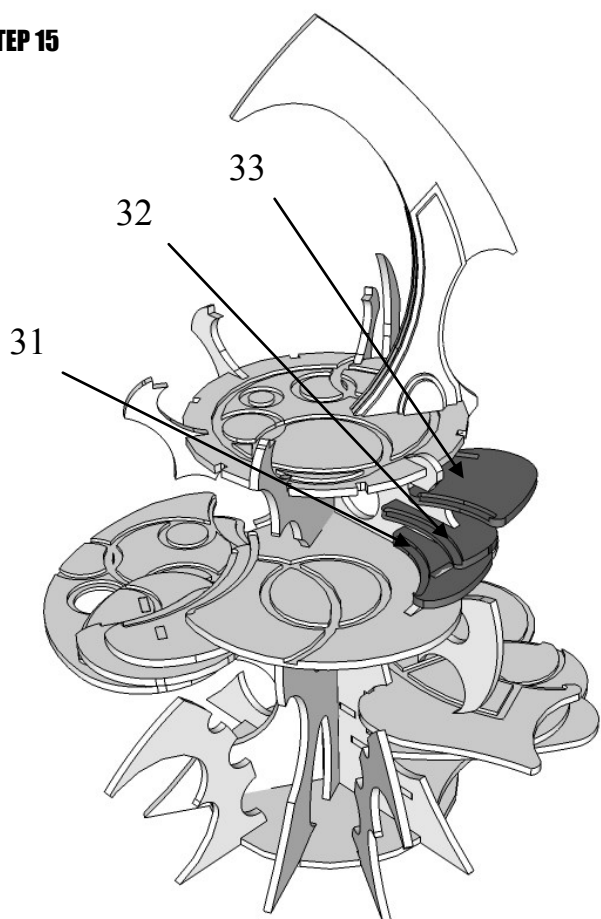

### STEP 14

Assembly from steps 1 through 3

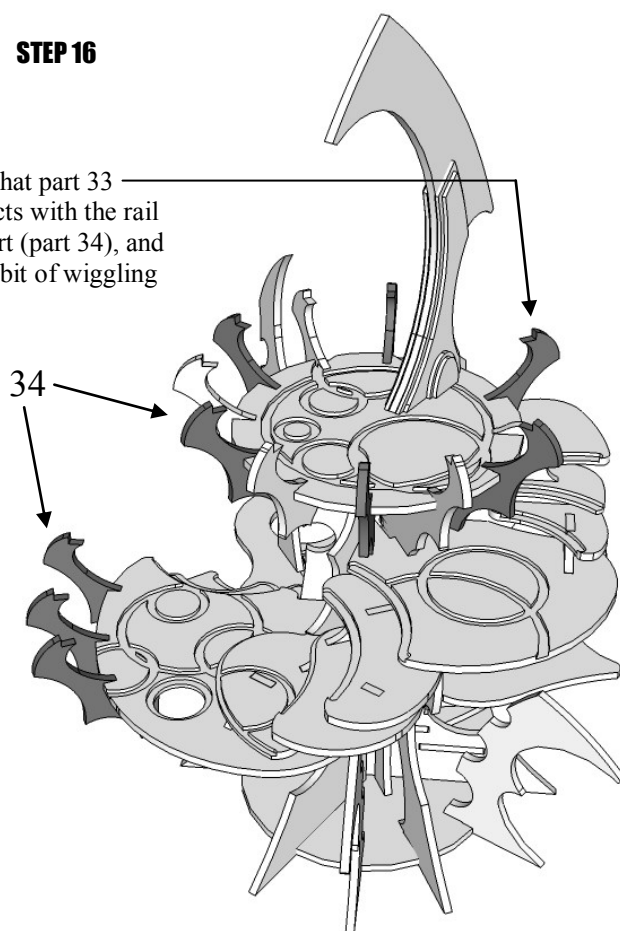

### STEP 15

### STEP 16

Note that part 33 interacts with the rail support (part 34), and will a bit of wiggling to fit.
