MINIATURE SCENERY

Instructions

HEAVY MULTI-PURPOSE TRANSPORT 1 (HUMPT1) MK2

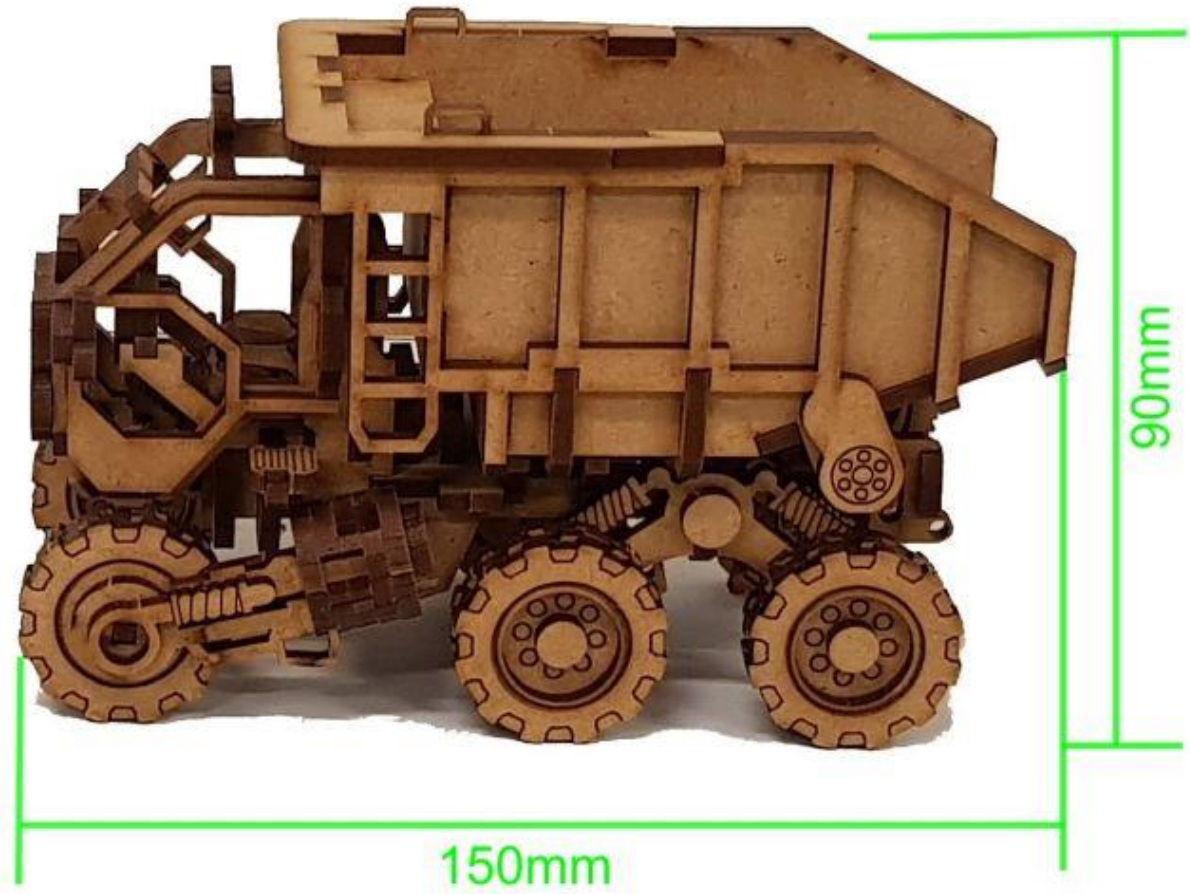
Preparation

You will need:

- Cutting mat or something to protect your table.
- PVA/Wood glue or superglue if you prefer.
- Small file or sand paper.
- Small blade / hobby knife

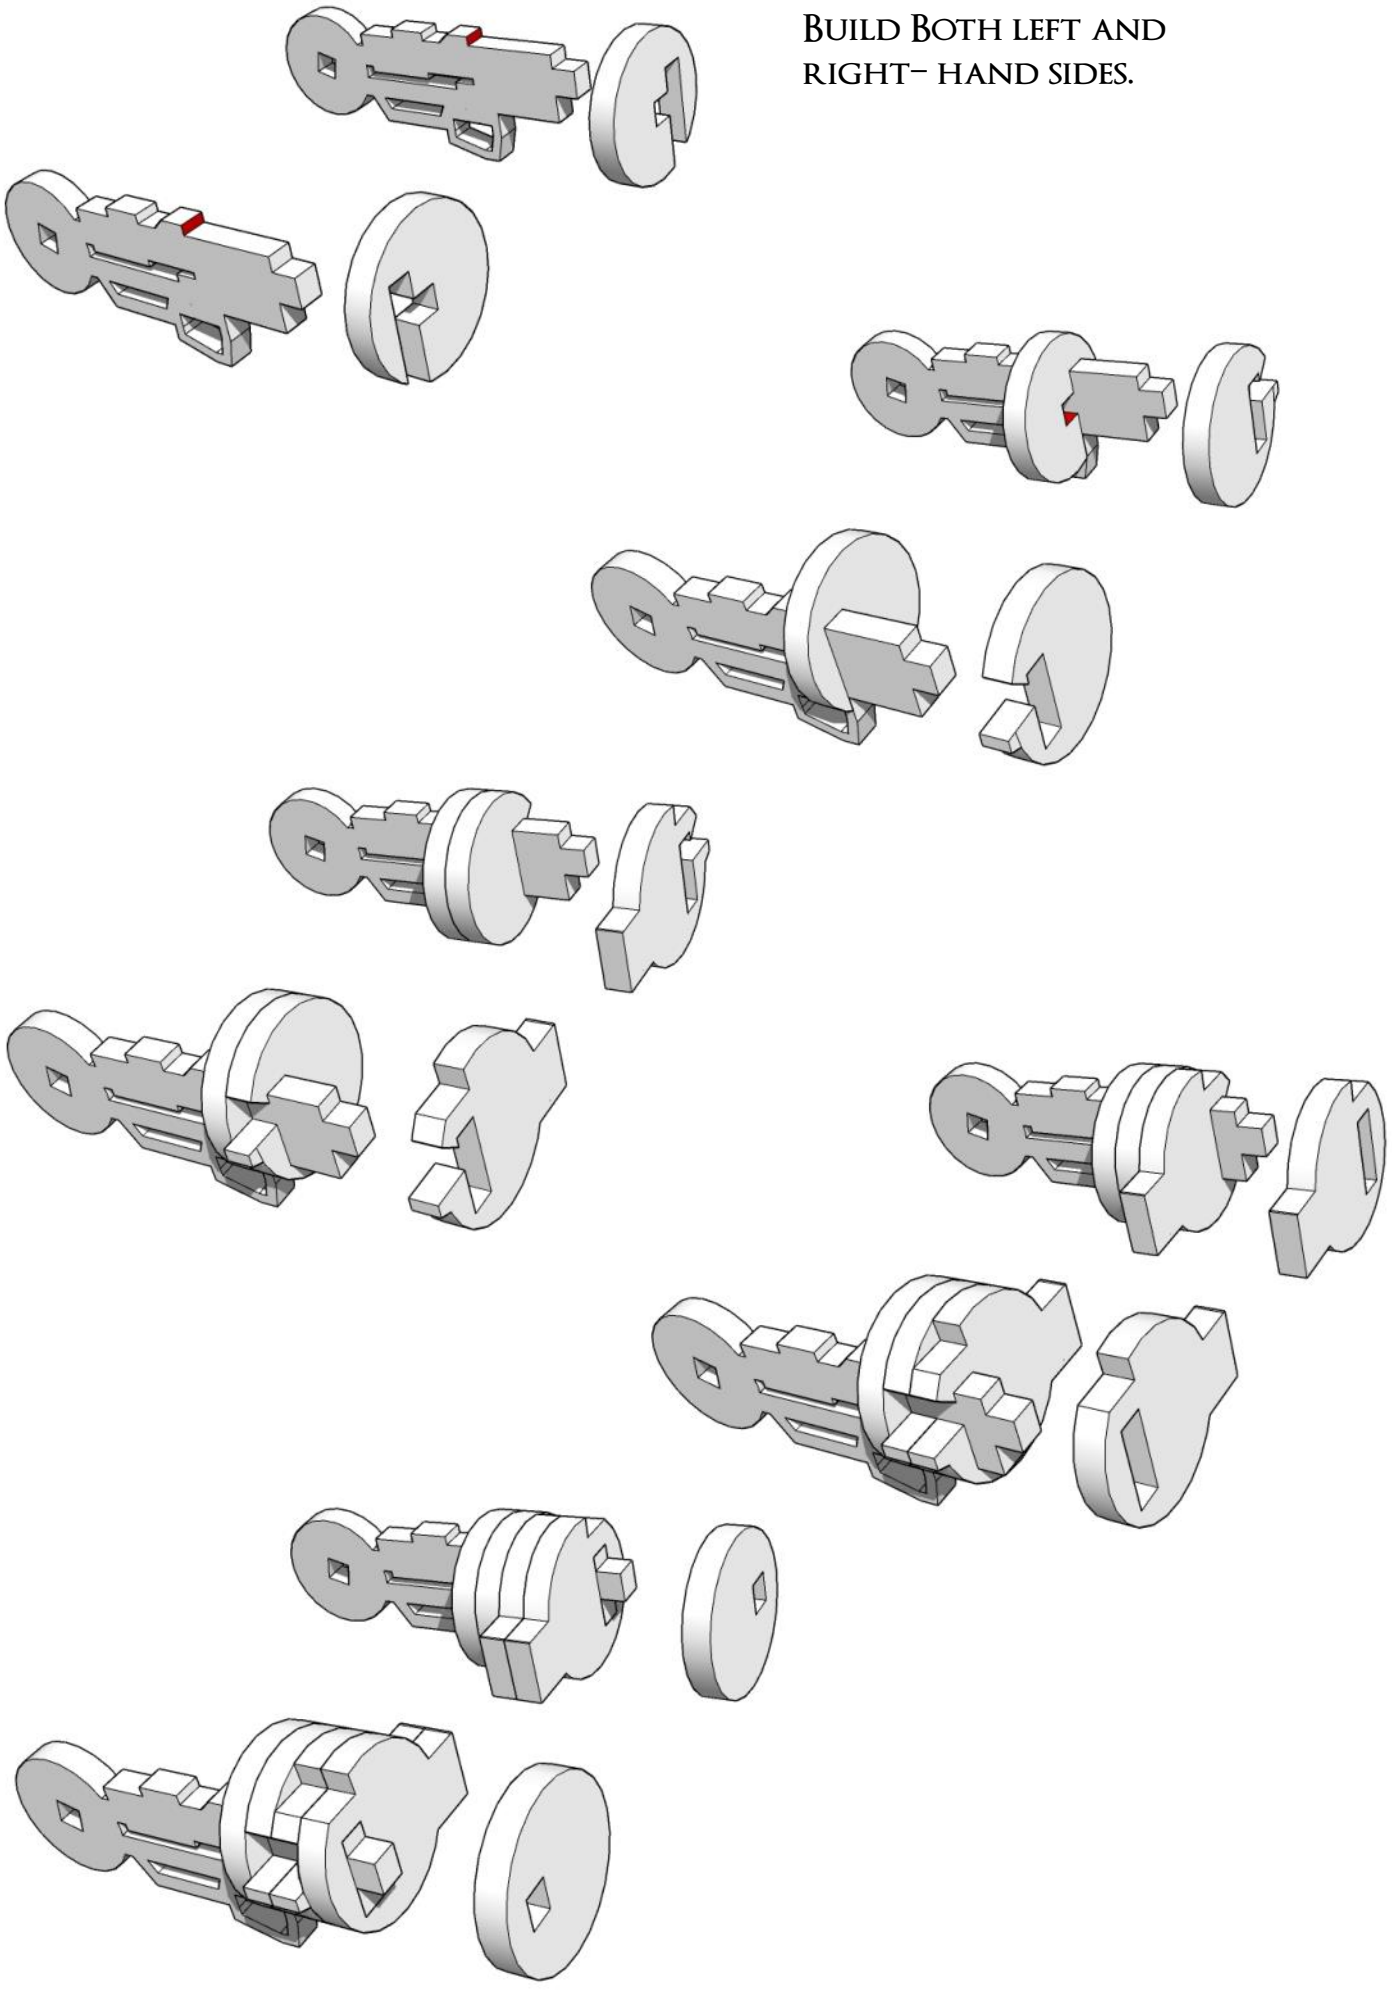
General Process

- Clear plenty of table space, you will need it.
- Parts should remove easily from the board by pressing through and popping them out. It's a good idea to cut through the tiny joins first though, and some parts (particularly smaller, more detailed parts) may need more carful persuasion.
- Use file or sand paper to remove the small bur caused by the connection to the frame.
- It's a good idea to familiarise yourself with how the pieces fit together before gluing.
- Slot the parts together as shown by the pictures below, applying glue wherever there is a connection. (unless shown otherwise)
- Parts may be a very tight fit, slight trimming or sanding of parts may be needed for ease of assembly.

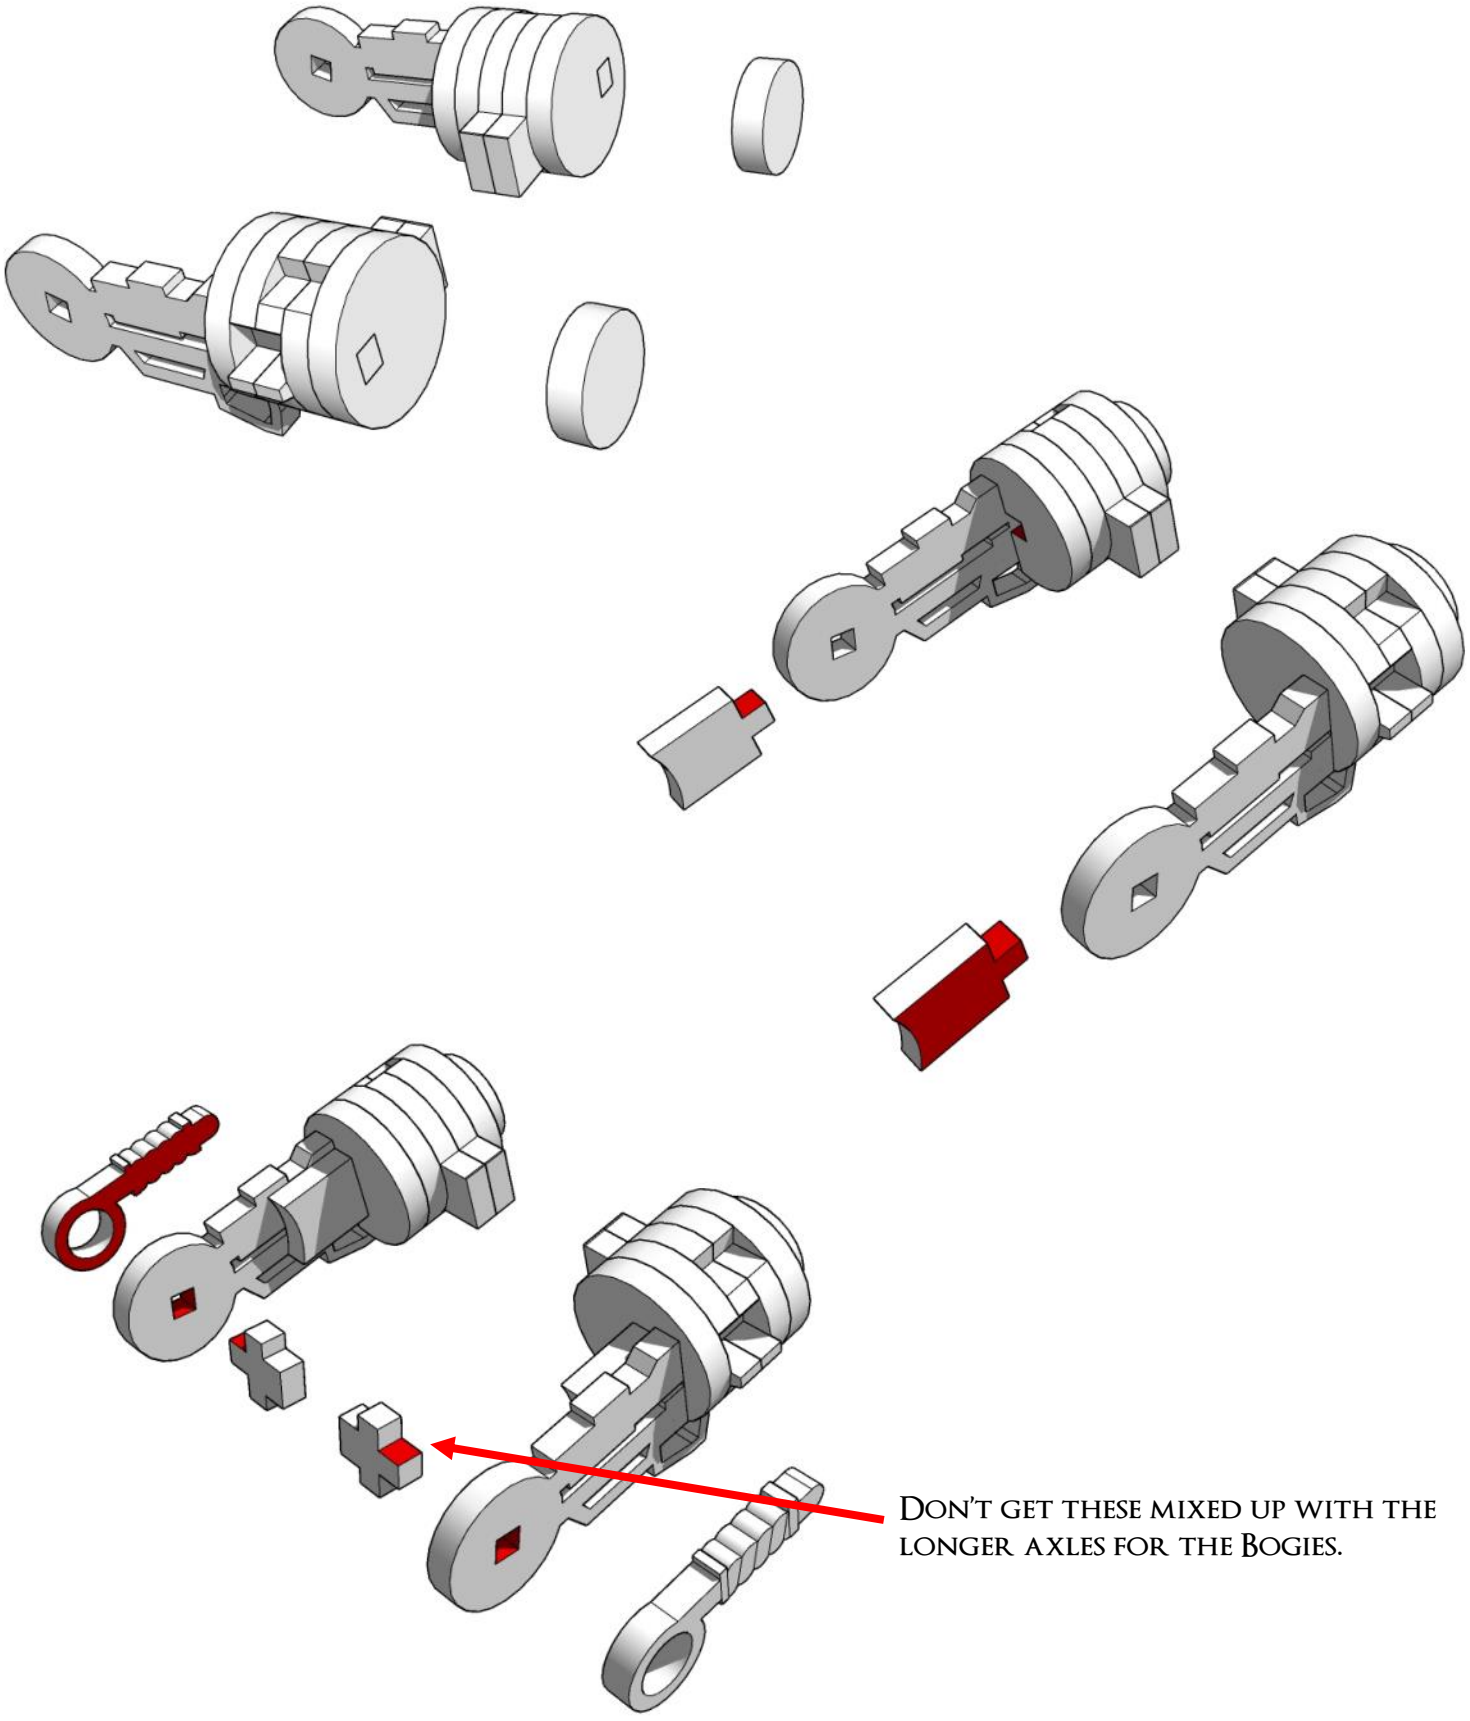


Fronts Forks.

Build Both left and right- hand sides.

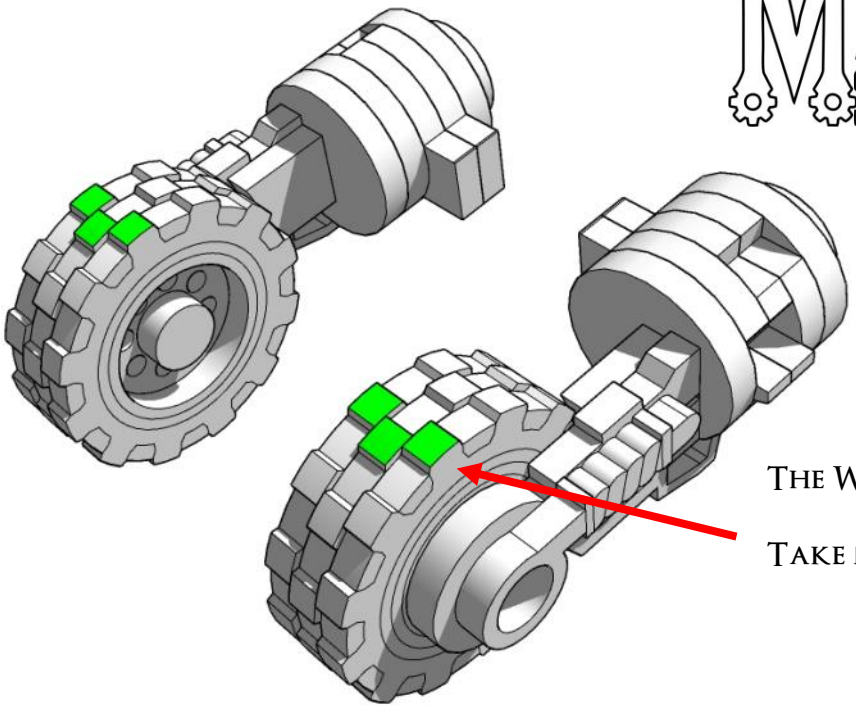


MINIATURE SCENERY



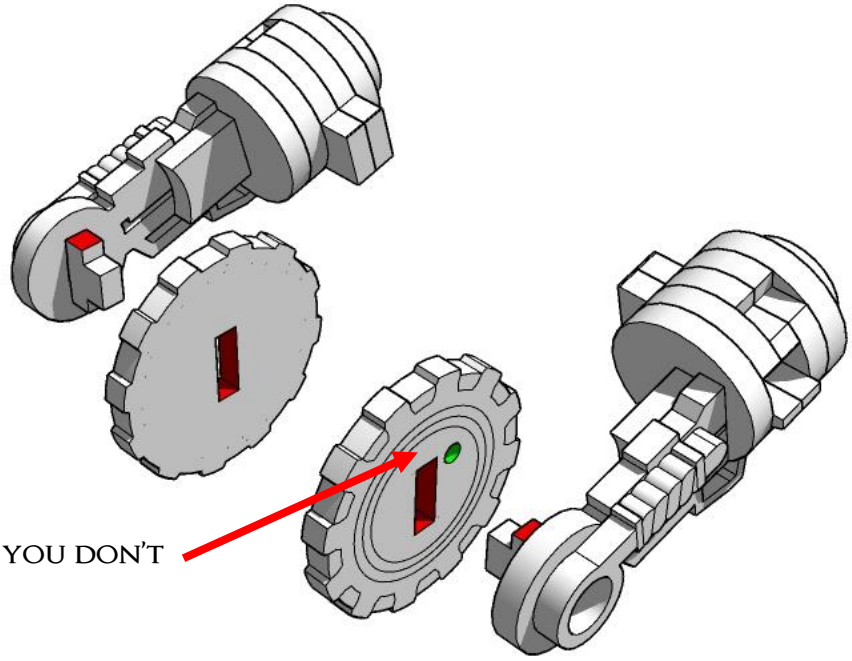
Don't get these mixed up with the longer axles for the Bogies.

MINIATURE SCENERY

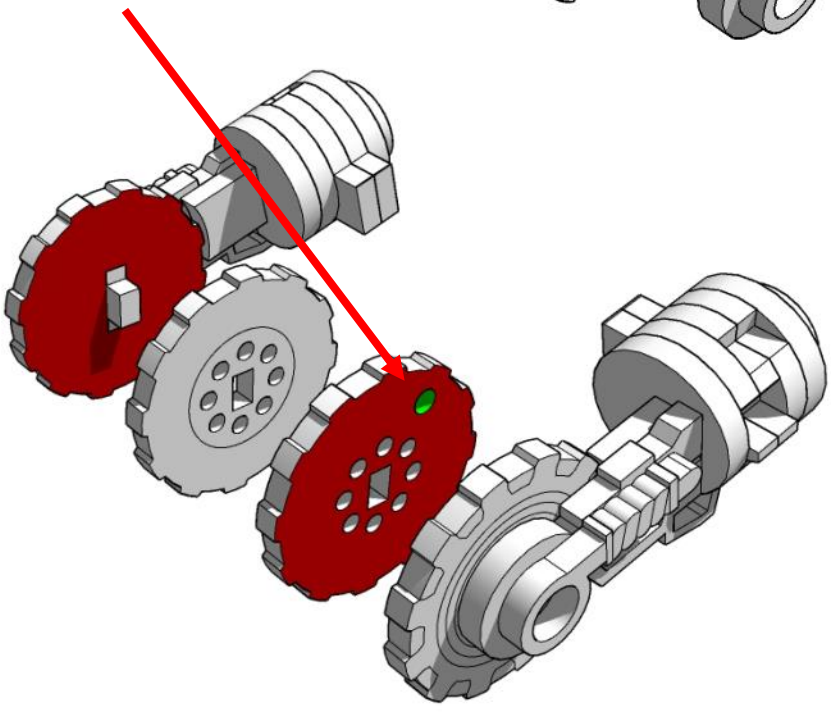


The Wheels in this kit are Handed.

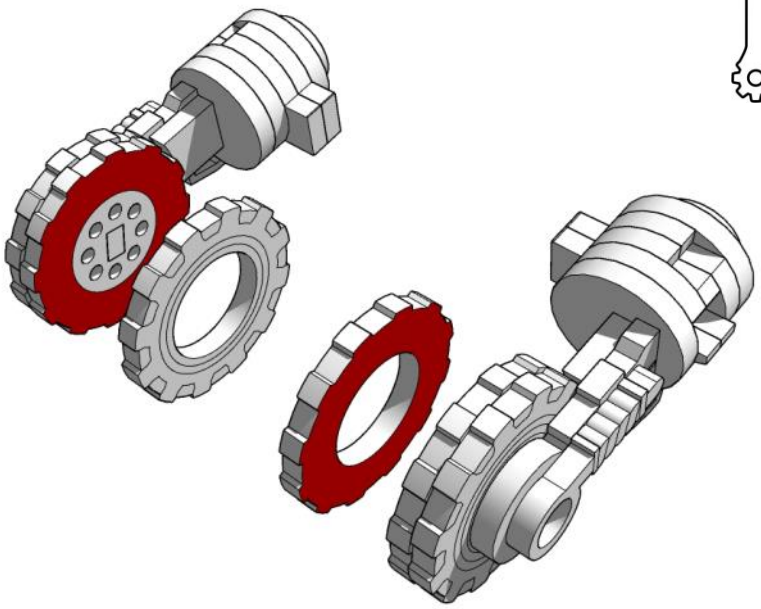
Take note of the direction of tread.

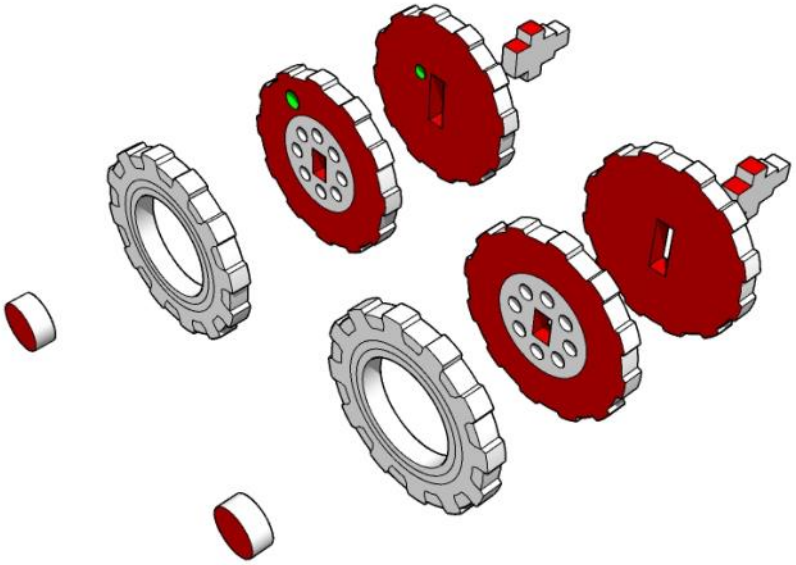


Hole on left hand side so you don't get them mixed up.

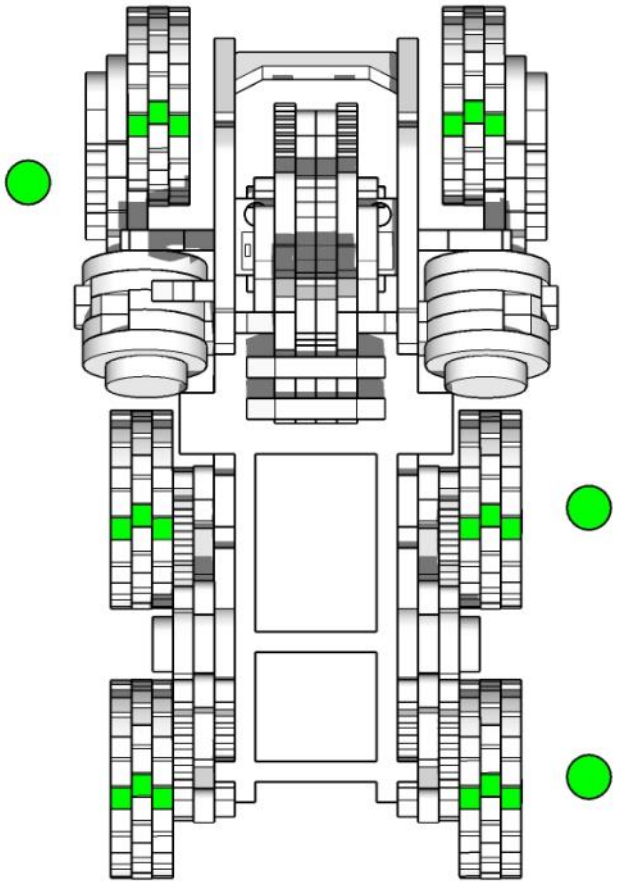


MINIATURE SCENERY

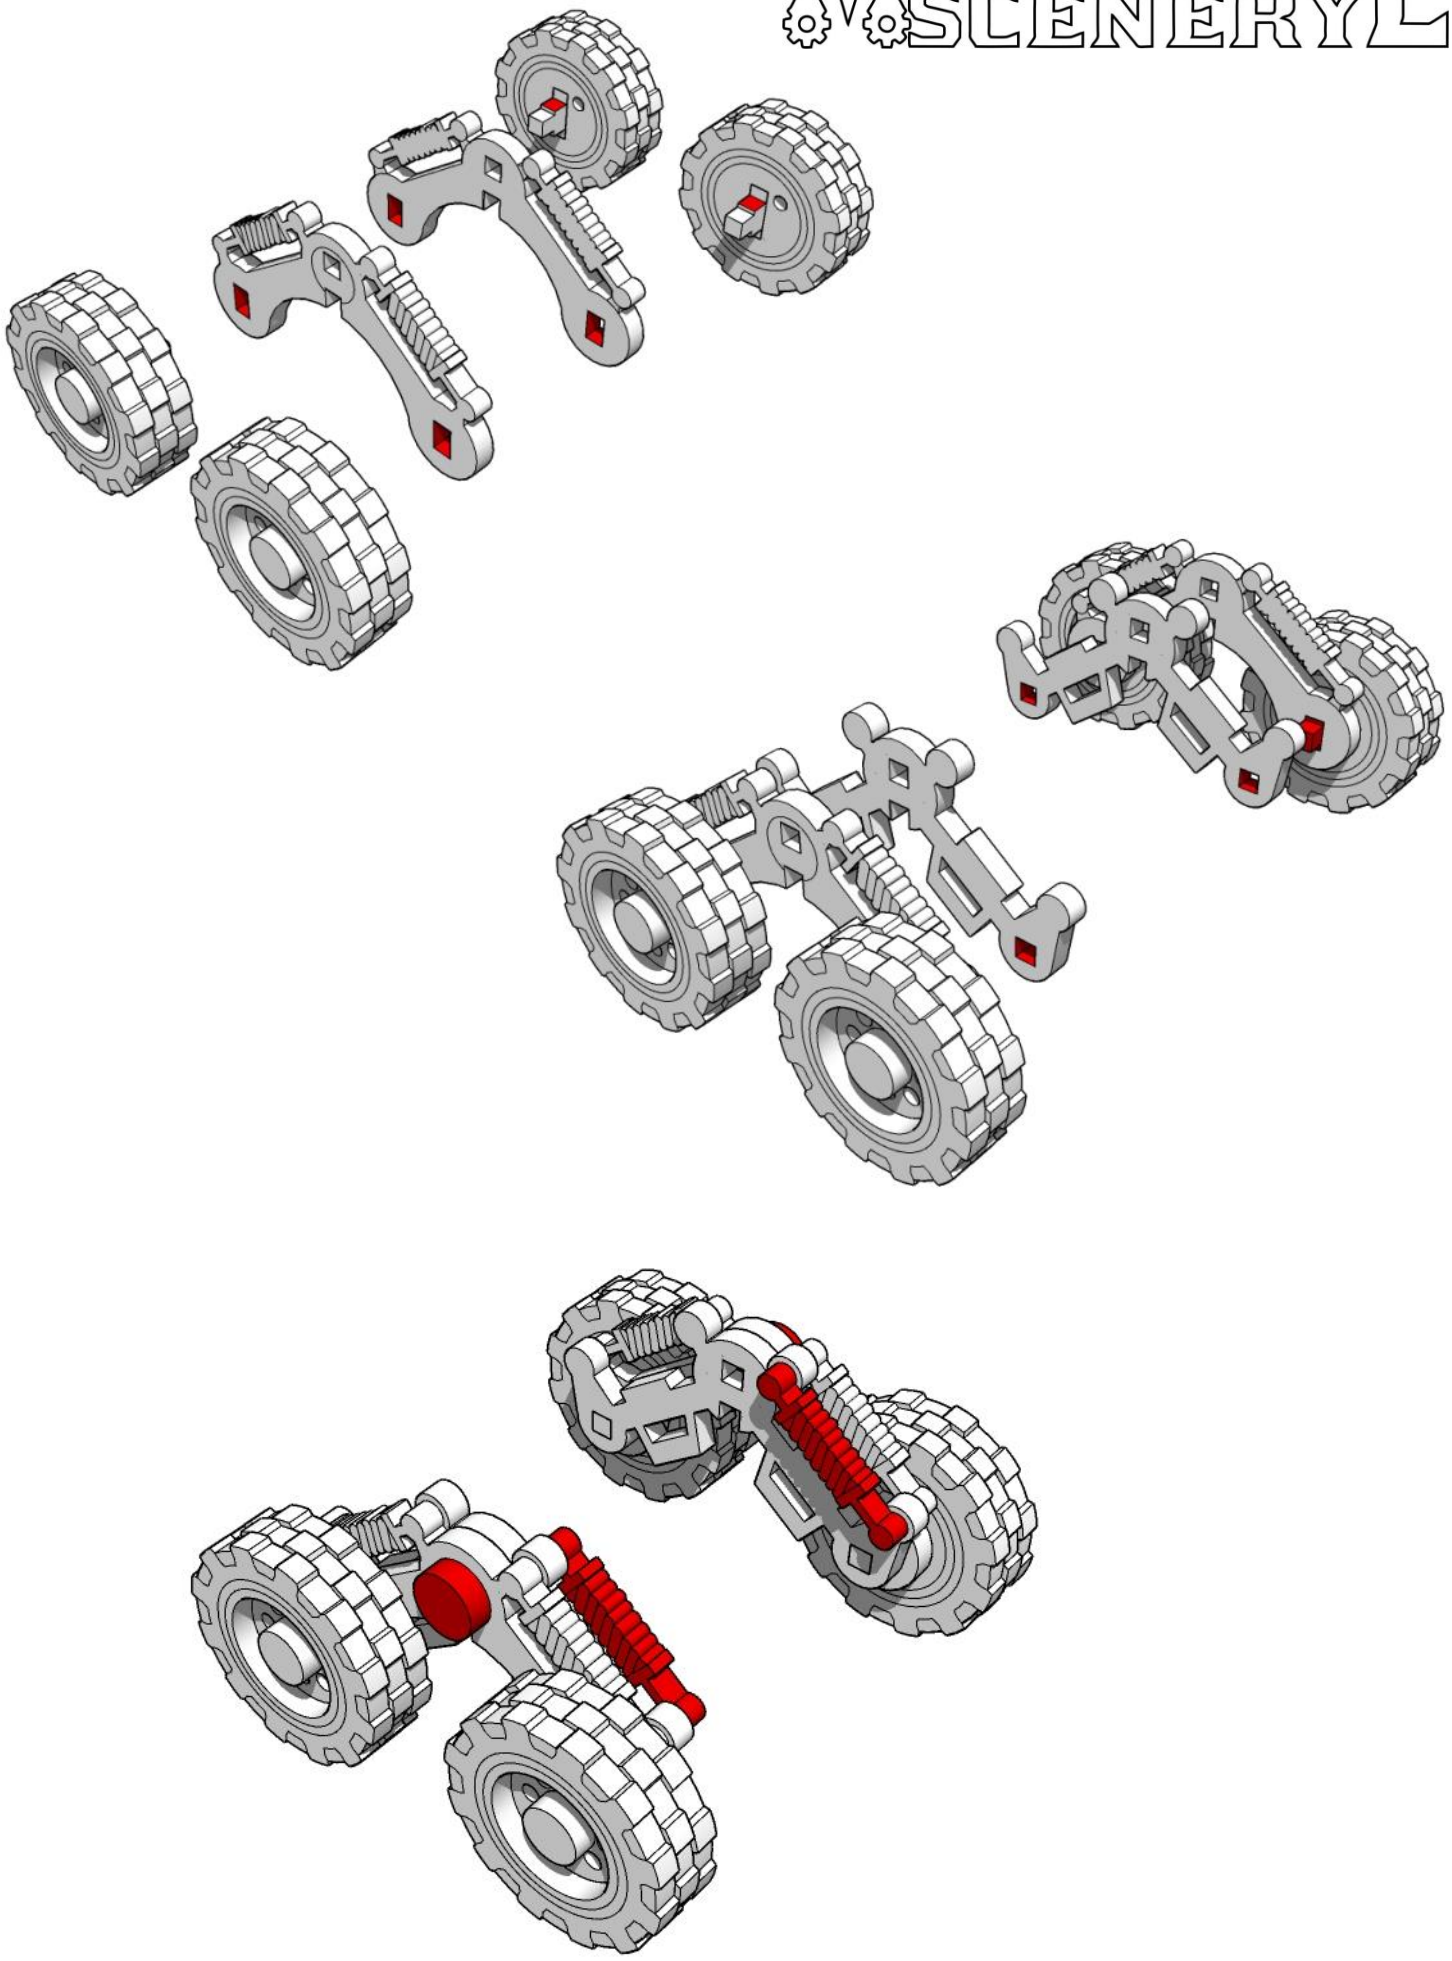




The Wheels for the rear Bogies are also handed, Make two of each. The Wheels with the holes will go on the Right hand side this time.



MINIATURE SCENERY



MINIATURE SCENERY

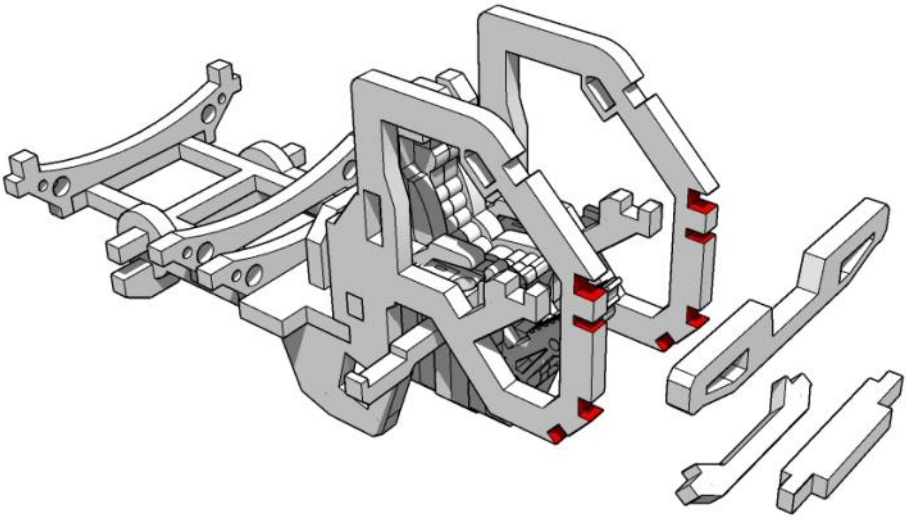
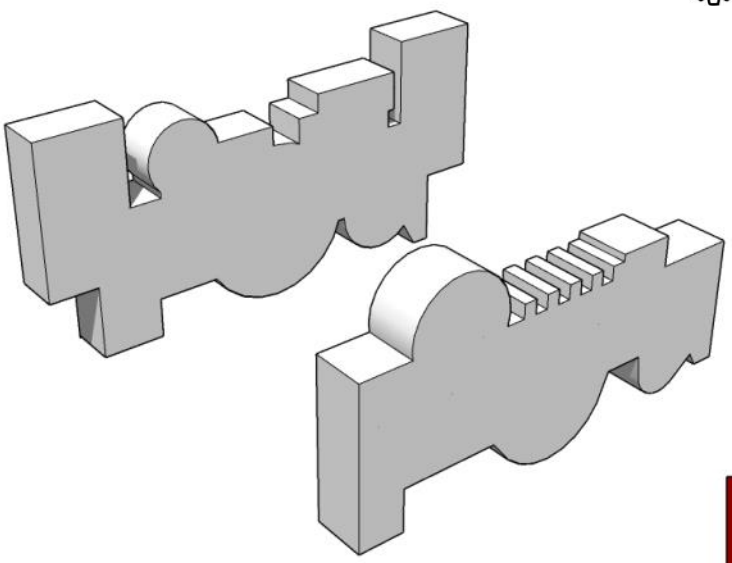
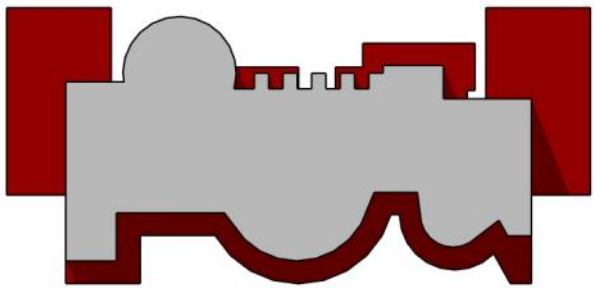
Note that if you have a Different version of the Humpti (such as the Dumptruck, or Transporter), they may call for Different parts here.

This will be made obvious in their own respective instructions.

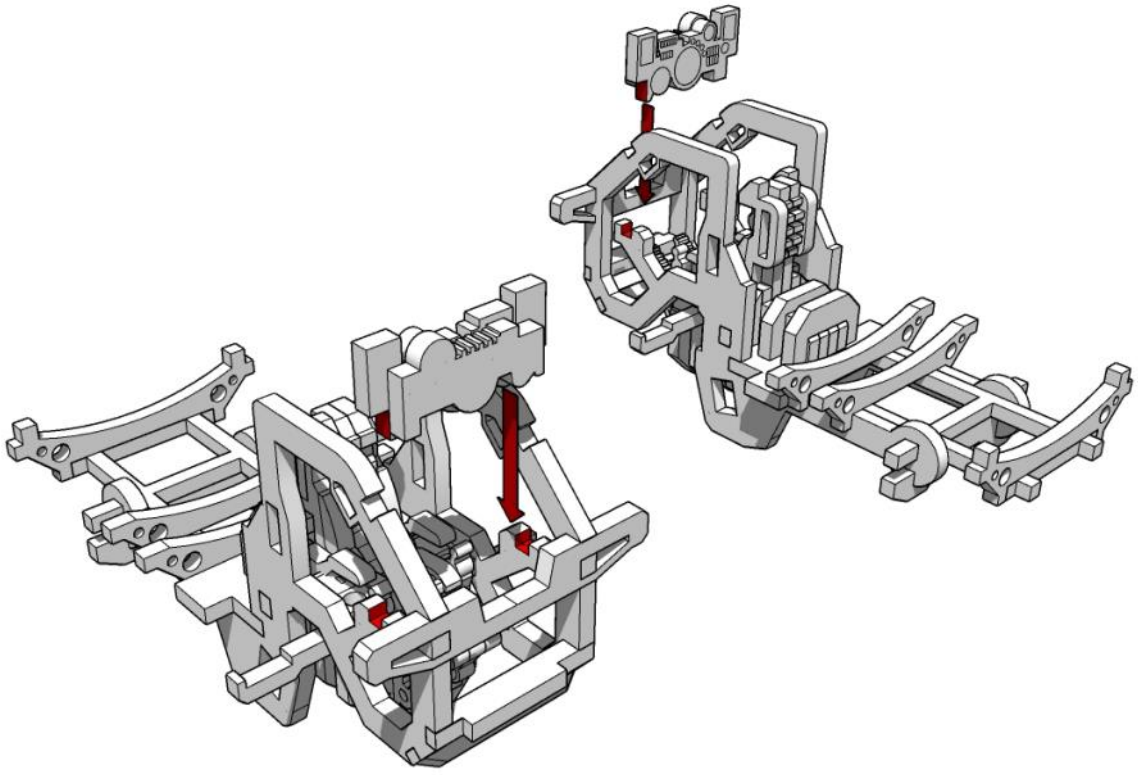




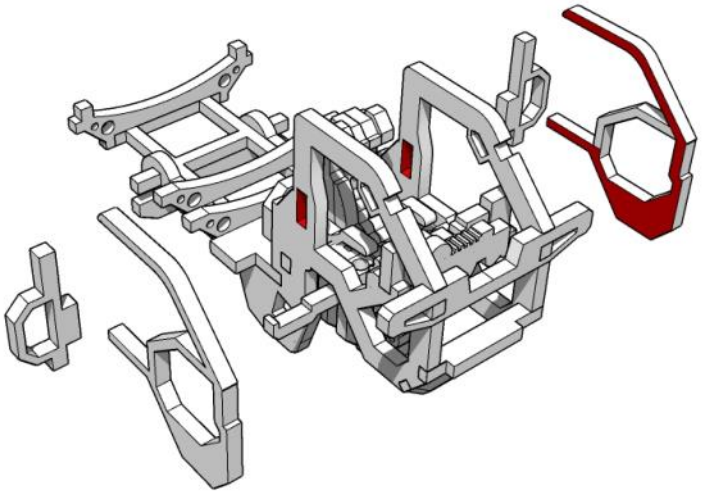


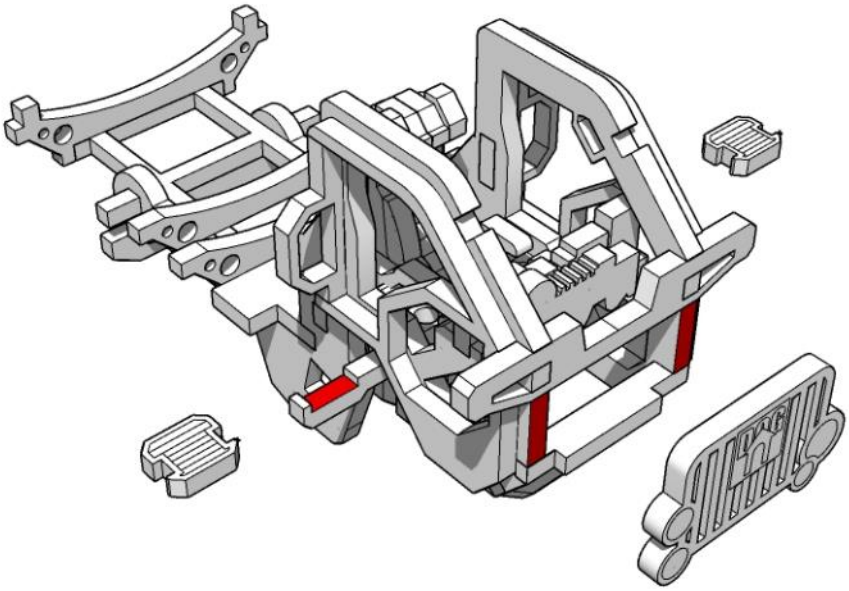
Th instrument Panel is a bit fiddly to fit, but it DOES go in, I assure you.

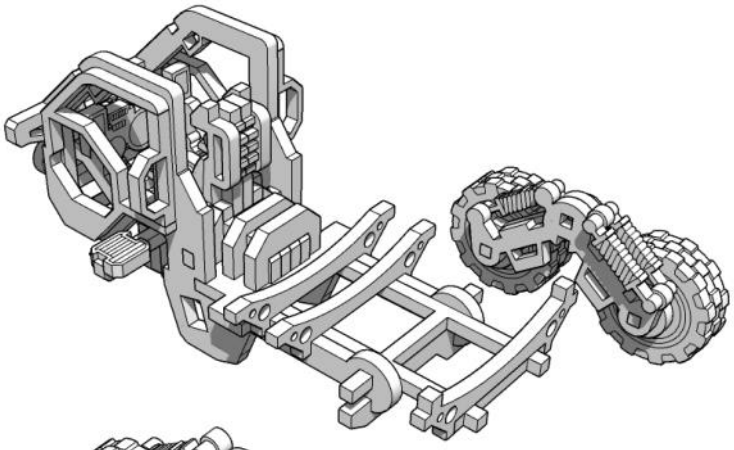
This is also a good time to paint the inside of the cockpit, as it will be difficult to reach later.



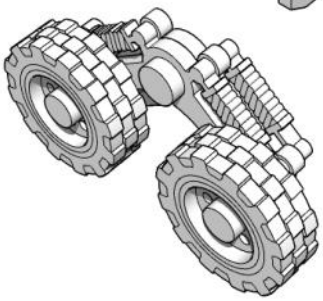
MINIATURE SCENERY

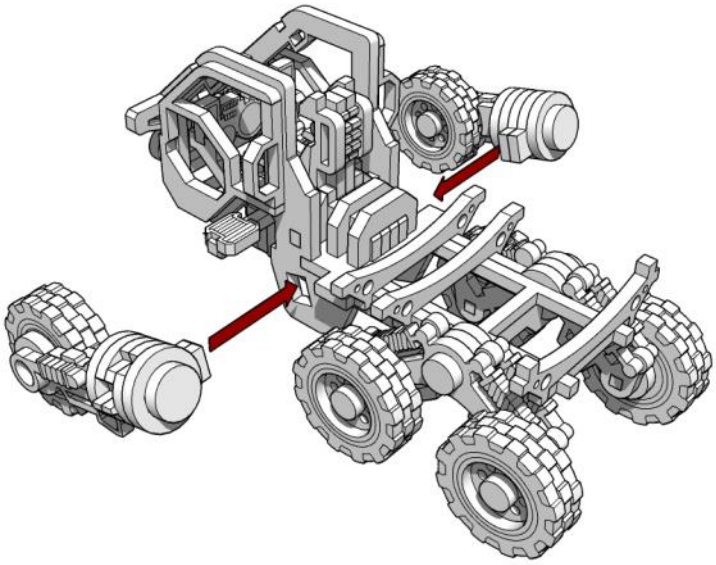




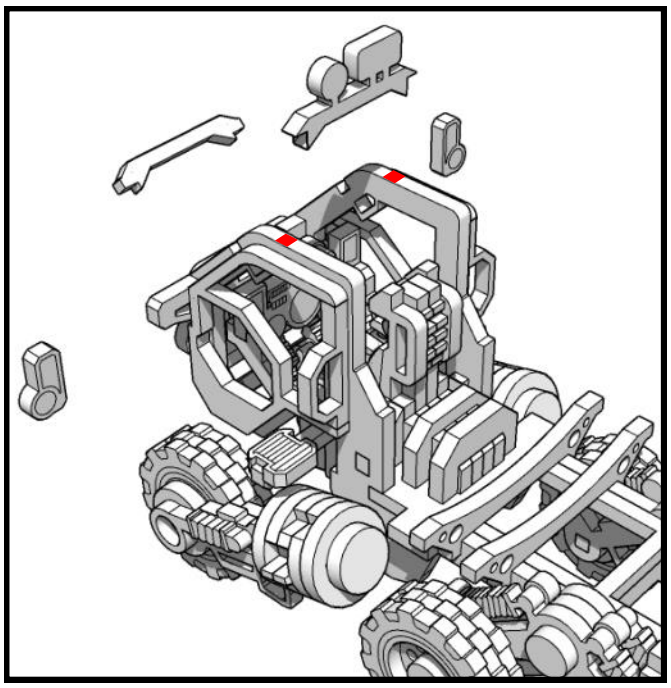


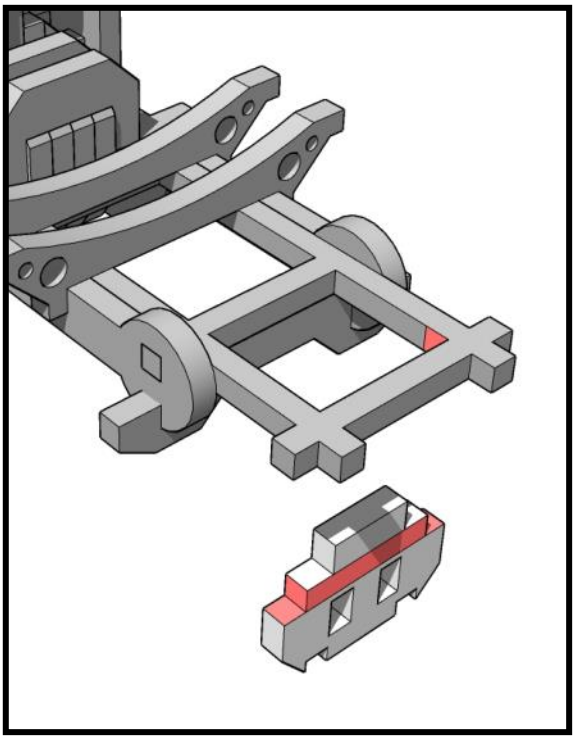
I suggest leaving the model on a flat surface to dry at this point, ensuring that all of the wheels touch the ground.

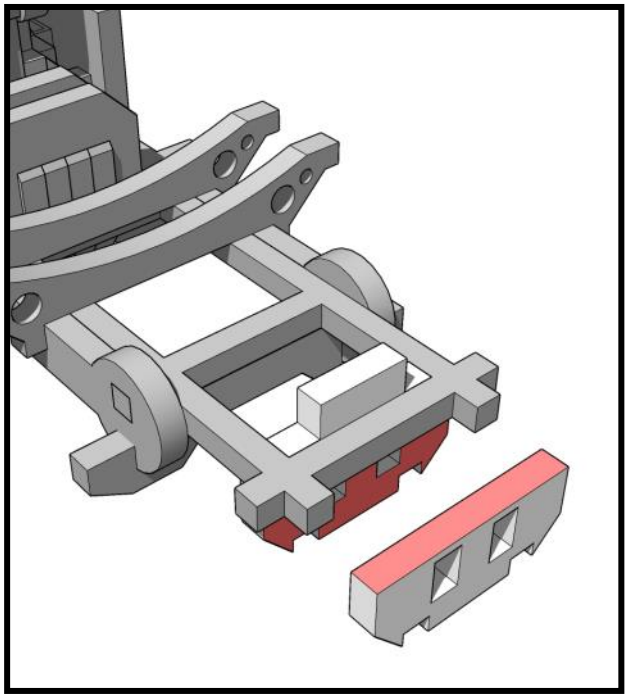


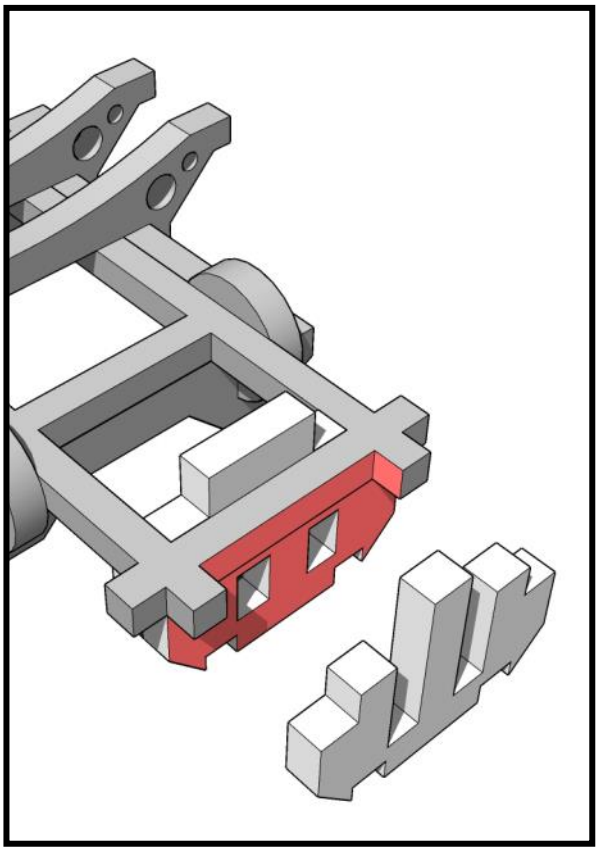


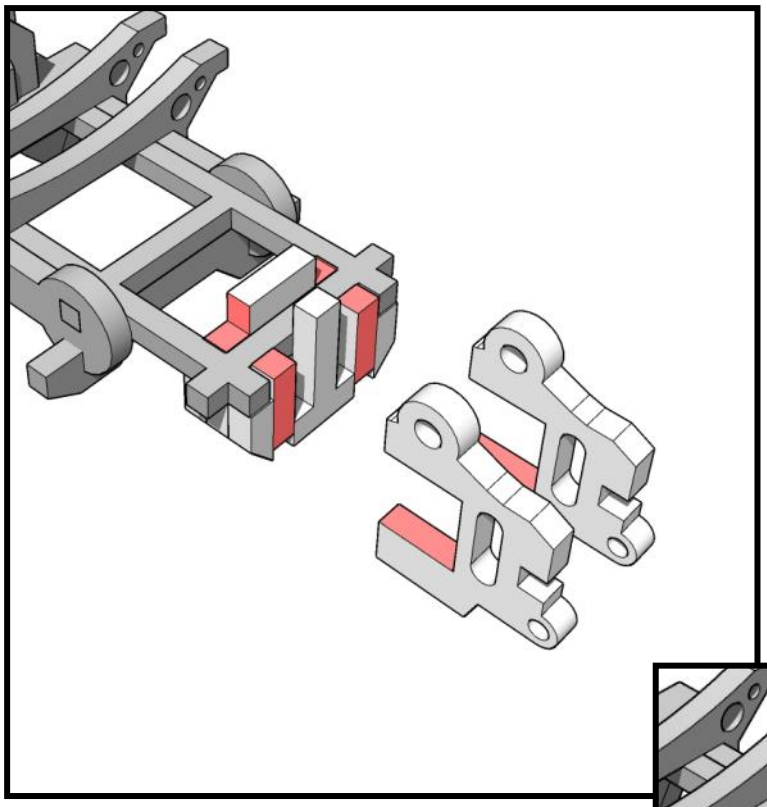
MINIATURE SCENERY

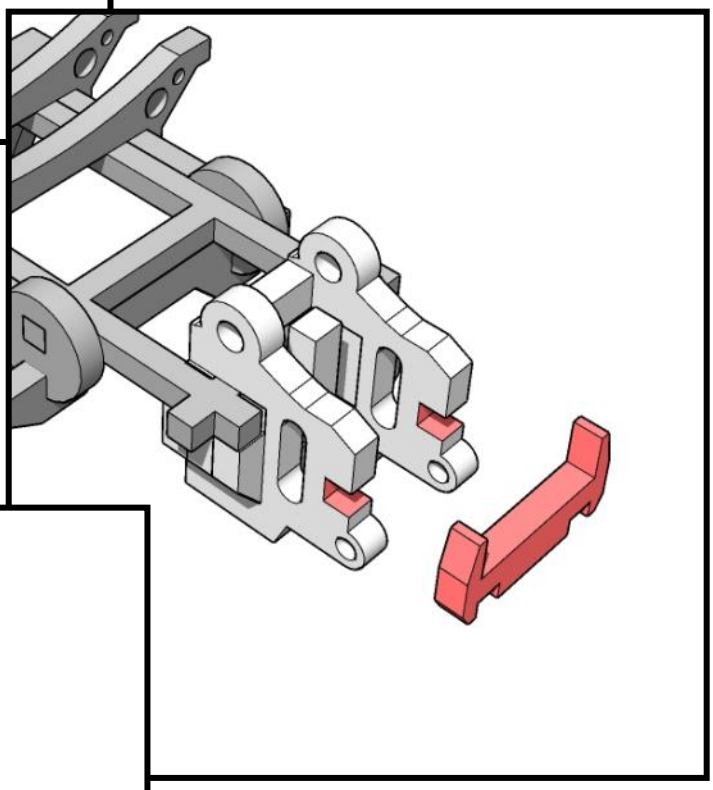


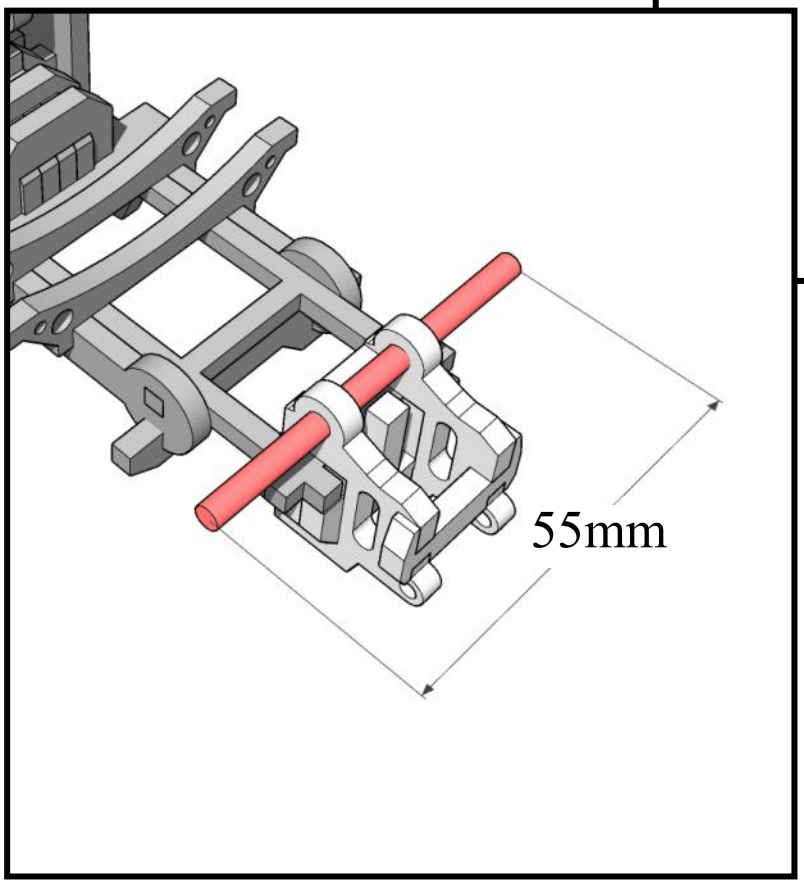




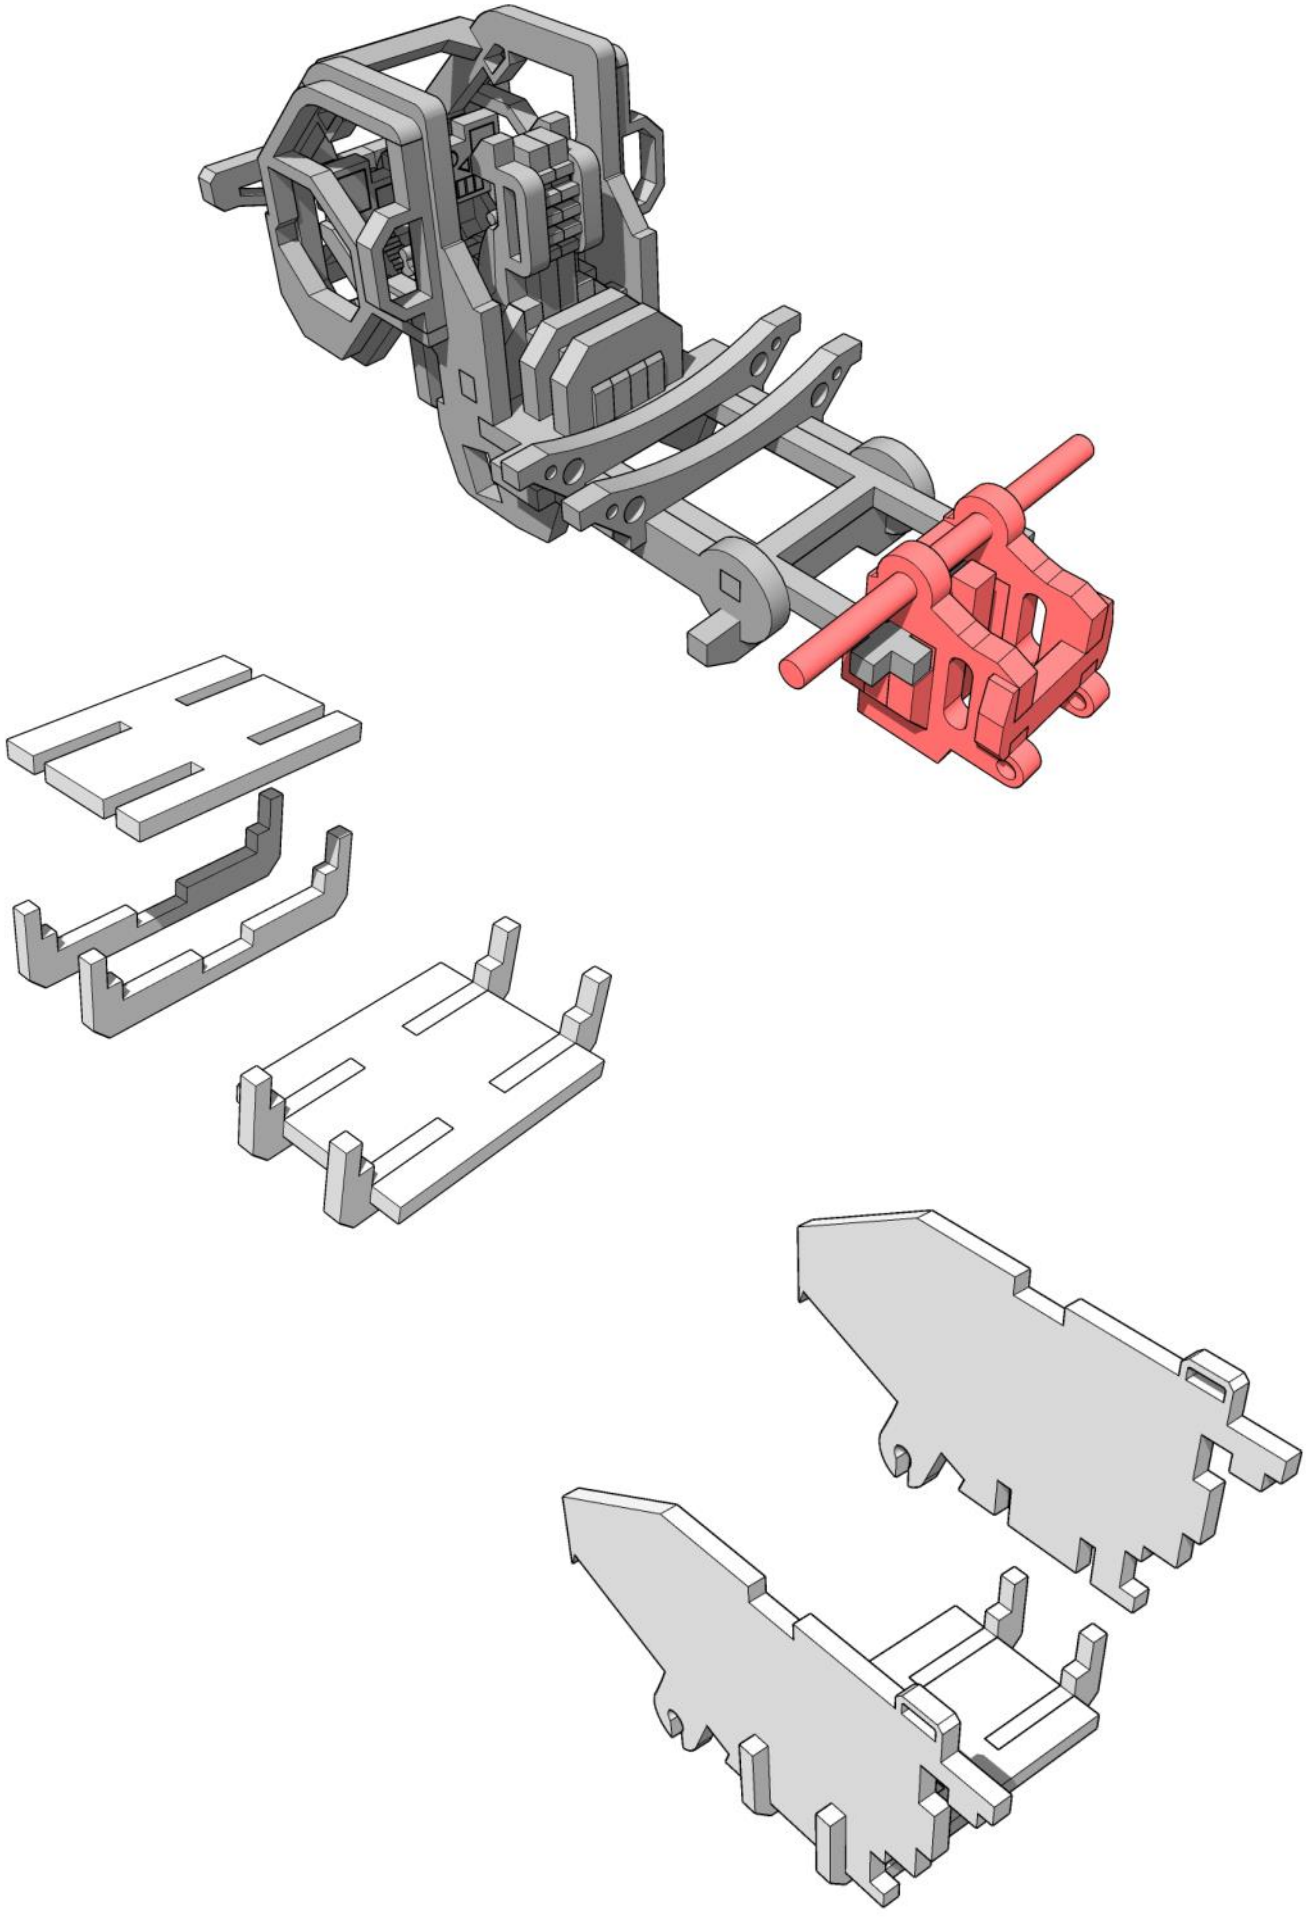


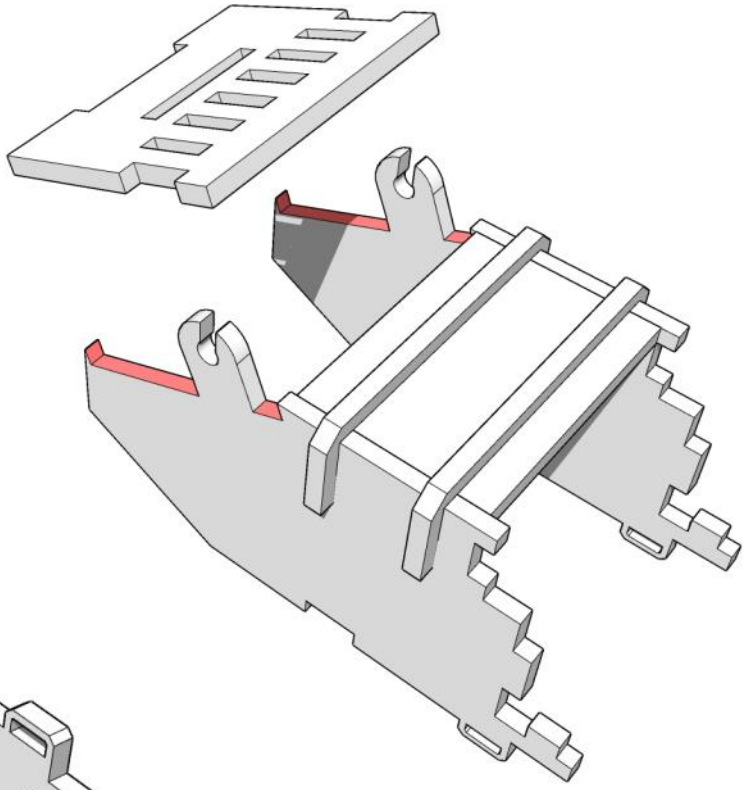


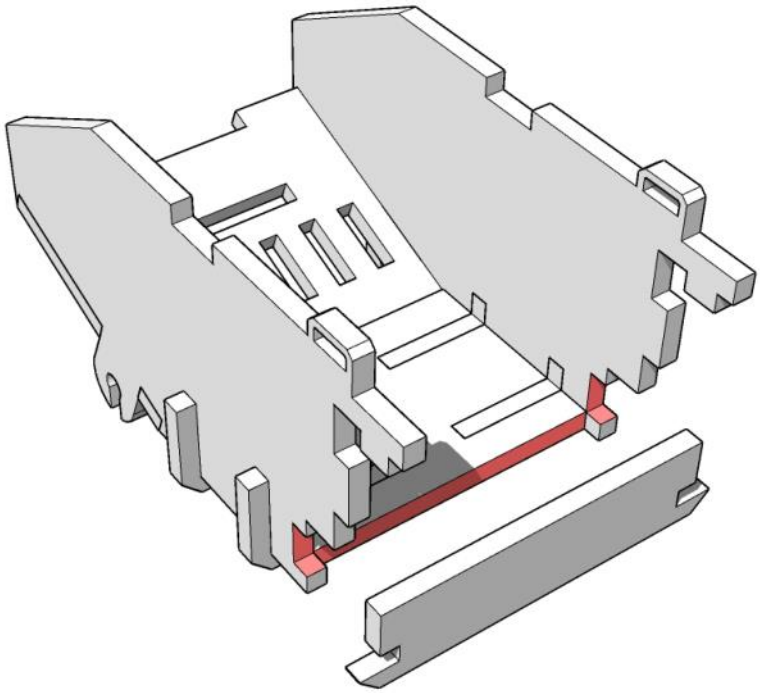


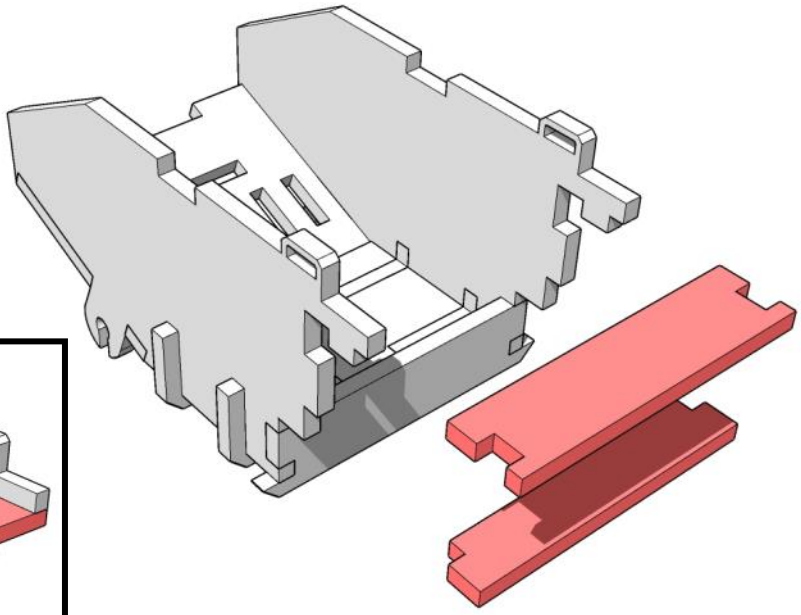


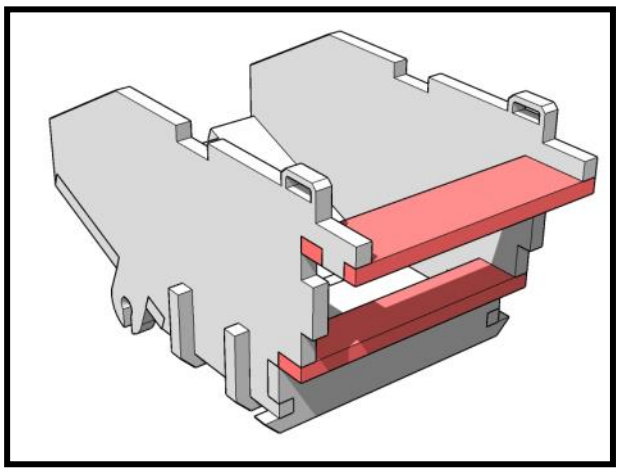
55mm

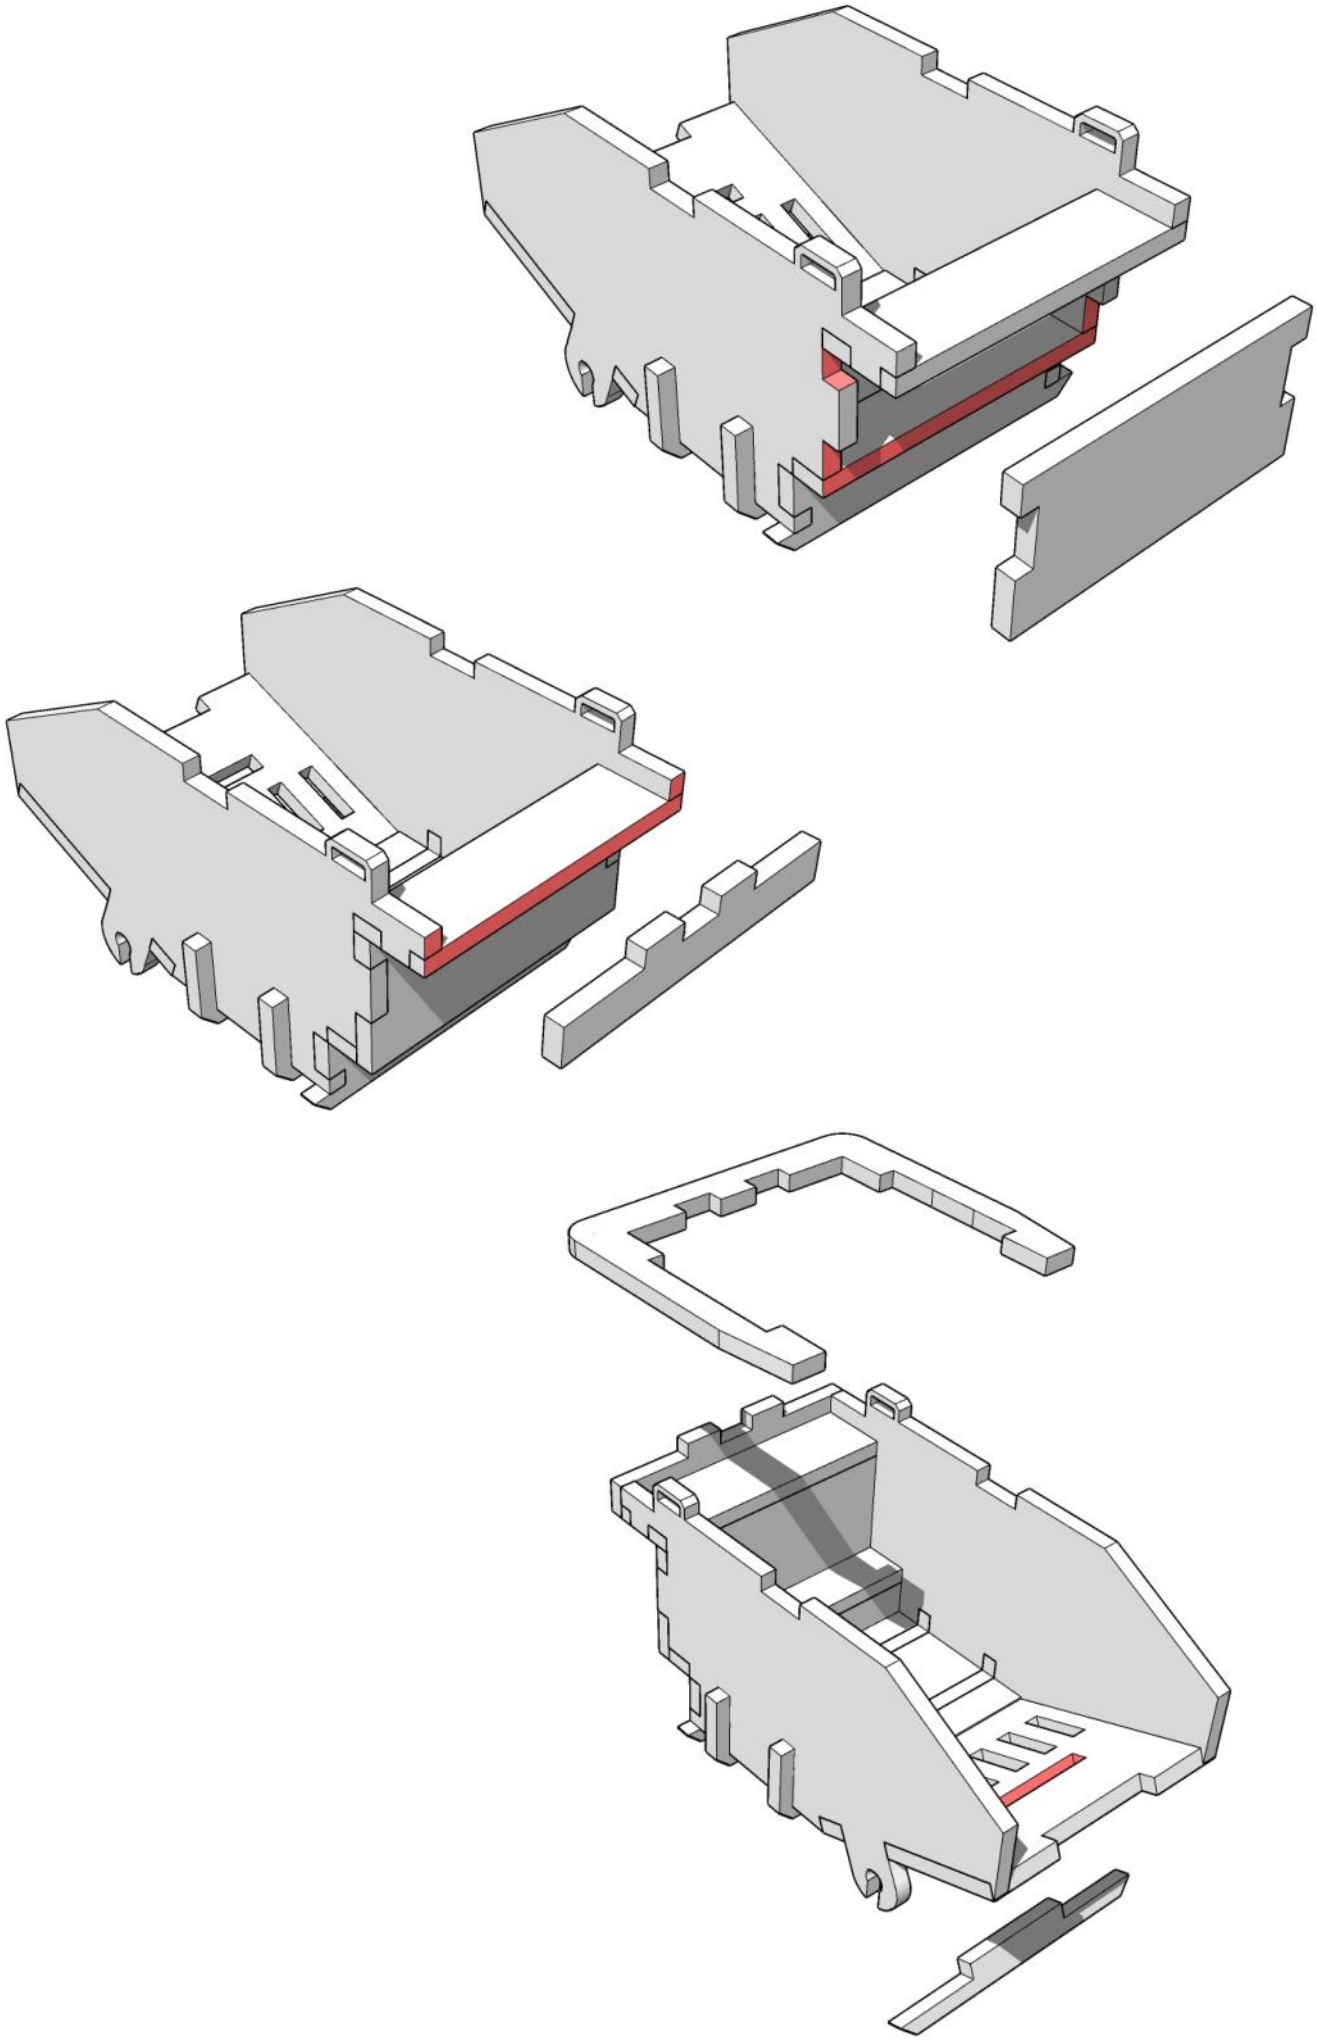


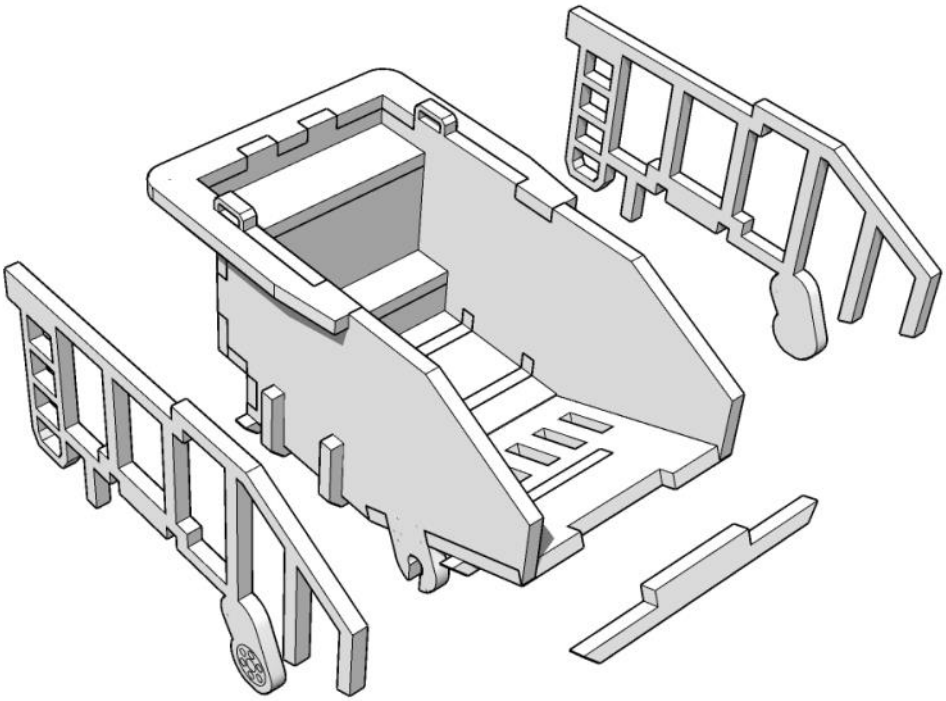


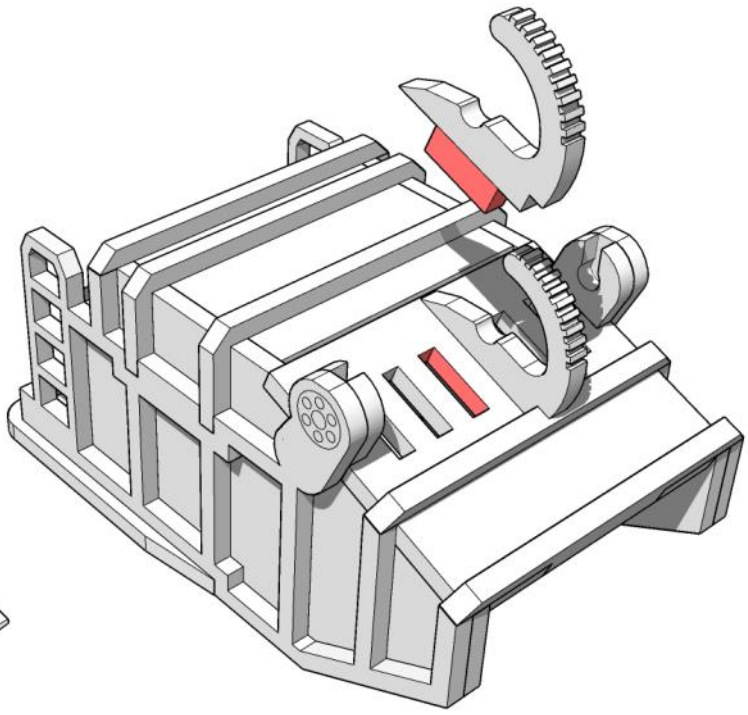


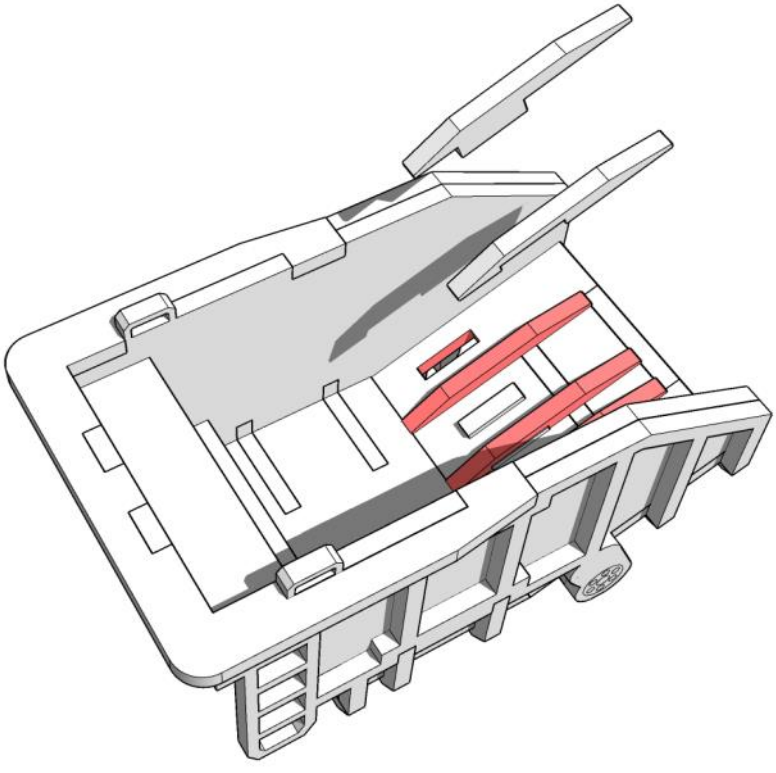


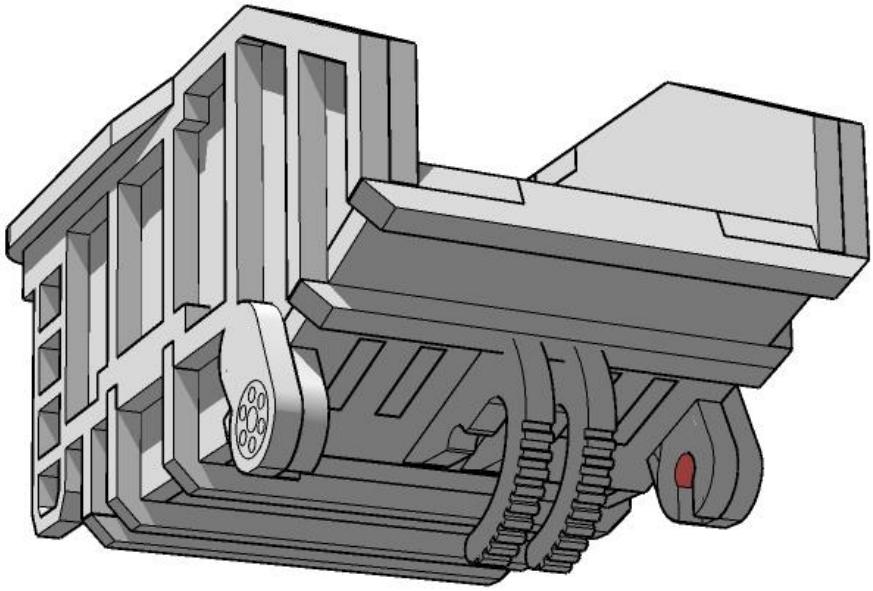


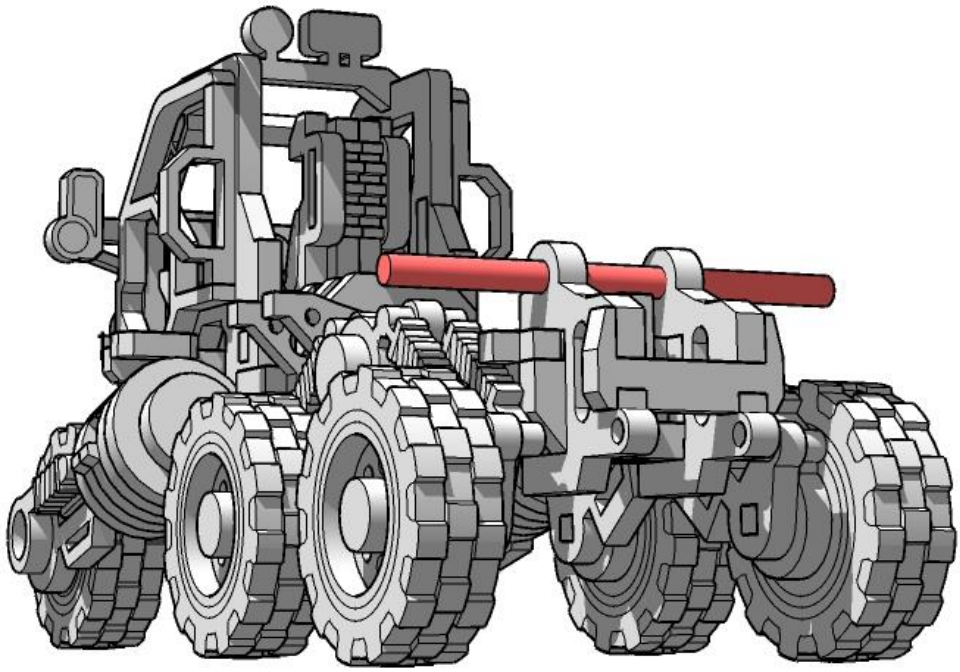












If you don’t glue this assembly, it should tip backward and forwards.
